

## ACKNOWLEDGEMENTS

I feel privileged to express my deep sense of gratitude and sincere thanks to my guides Prof.(Dr.) P. B. Joshi, Metallurgical and Materials Engineering Department of Faculty of Technology & Engineering, The Maharaja Sayajirao University of Baroda and Dr. G. S. Grewal, Deputy Director, Electrical Research and Development Association (ERDA), Vadodara for their motivation and indispensable guidance towards the successful completion of this research work. During my association with them I have been persistently encouraged and educated by them through fruitful discussions throughout the entire period of this research work.

I take this opportunity to thank Prof. (Dr.) S. K. Dutta, Head of Metallurgical and Materials Engineering Department, Faculty of Technology & Engineering, M. S. University of Baroda as well as all past Heads of the Department for extending me the laboratory facilities available in the department for research, showing active interest in my work and encouraging me from time to time.

I am grateful to Dr. M. K. Shah, Director, ERDA, Vadodara as well as all past Directors of ERDA for providing me infrastructure facilities for setting-up the fatigue testing laboratory as well as for providing all required support during this research program. My sincere thanks are due to Dr. V. Shrinet, Head, Technology Center, ERDA, Vadodara for his support and encouragement.

I would like to express my gratitude to Ms Alphonsa Joseph, Engineer-SF, Facilitation Center for Industrial Plasma Technologies (FCIPT), Gandhinagar for her invaluable help in carrying-out plasma nitriding of the specimens during this investigation and for fruitful discussion.

At this stage I would like to express my thanks to all teaching & non-teaching staff members of Metallurgical and Materials Engineering Department of Faculty of Technology & Engineering, M. S. University of Baroda as well as all my colleagues in ERDA for extending me timely help, as and when required.

I am grateful to Dr. Bharati R. Rehani, Associate Professor, Metallurgical and Materials Engineering Department, MSU, Vadodara for the help rendered during X-Ray Diffraction studies.

My thanks are also due to Mr. Yakshil Chokshi of Metallurgical and Materials Engineering Department for his cooperation and support from time to time during this research work.

I am indebted to Ministry of Power, Government of India for funding the research project under its RSOP scheme.

Lastly, I express my sincere thanks to my parents, wife Ulka, and son Rohan for their moral support, understanding and cooperation throughout the course of my research work.

M. S. UNIVERSITY OF BARODA

U. N. Puntambekar
