

Acknowledgement

Behind every accomplishment there are many positive forces, and without acknowledging these positive forces the accomplishment is in vain. With immense pleasure, I take this opportunity to express my heartfelt gratitude to all those who guided, helped and supported me directly and indirectly in the completion of this thesis.

No words will ever be enough to genuinely thank my guide Prof. Sujata Srivastava, Department of Education, Faculty of Education and Psychology. She patiently guided my path to success in these four years of my Ph.D. endeavour. She oriented me to the vast ocean of research at the time when I had little knowledge in this field. She shared her rich experience and prodigious knowledge to make me understand the subtleties of research. Though, It was a panting task for me to match up with her pace, abundant energy, constant motivation and enthusiasm that she always showed towards me. This inspired me to fight against those moments when I felt the weakest. Every consultation with her helped me discover new knowledge; the intensive and comprehensive discussions with her helped me refine my understanding of my work better and better. Ma'am, I thank you with the deepest sense of appreciation for being a compassionate mentor and having my best interest in mind.

I am sincerely grateful to Prof Ashutosh Biswal, Department of Education for his encouragement and support towards my study. I wish to extend my special thank you to Mr. Kiran Rajput Assistant Prof. Department of Psychology for taking time out from his hectic schedule and being a valuable support.
