LIST OF FIGURES

SR. NO.	FIGURE NO.	DETAILS	PG. NO.
1	1.1	Areas and further classification of Mathematics as a discipline	5
2	1.2	Actual and Projected Demand for Secondary Education, 1990–2020	12
3	1.3	Overview of development of Taxonomies and their domains	25
4	1.4	Levels of SOLO Taxonomy	33
5	1.5	Visualization of the SOLO-levels 1-5. (Based on Biggs and Collis (1982))	33
6	1.6	Example of Matchstick Houses	39
7	1.7	Selection for the chapters of class-IX Mathematics for the experimental study	52
8	3.1	Matching and Sampling	147
9	3.2	Check for Normal distribution on scores of Control group for Chapter-12	158
10	3.3	Check for Normal distribution on scores of Control group for Chapter-4	158
11	3.4	Check for Normal distribution on scores of Control group for Chapter-8	158
12	3.5	Check for Normal distribution on scores of Control group for Chapter-14	159
13	3.6	Check for Normal distribution on scores of Control group for Chapter-15	159
14	3.7	Check for Normal distribution on scores of Control group in Overall Test	159
15	3.8	Check for Normal distribution on scores of Experimental group for Chapter-12	160
16	3.9	Check for Normal distribution on scores of Experimental group for Chapter-4	160
17	3.10	Check for Normal distribution on scores of Experimental group for Chapter-8	160
18	3.11	Check for Normal distribution on scores of Experimental group for Chapter-14	161

19	3.12	Check for Normal distribution on scores of Experimental group for Chapter-15	161
20	3.13	Check for Normal distribution on scores of Experimental group in Overall Test	161
21	4.1	Student Orientation, Teaching method and level of engagement	181
22	4.2	Overview of SOLO based (complete) Instructional Strategy	182
23	4.3	Overview Of SOLO Levels Based Unit Plan	182
24	5.1	Graph to compare Post- test scores of both the groups For Chapter-12	206
25	5.2	Graph to compare Post- test scores of both the groups For Chapter-4	206
26	5.3	Graph to compare Post- test scores of both the groups For Chapter-8	207
27	5.4	Graph to compare Post- test scores of both the groups For Chapter-14	207
28	5.5	Graph to compare Post- test scores of both the groups For Chapter-15	207
29	5.6	Graph to compare Post- test scores of both the groups For Overall Test	208
30	5.7	Graph to compare both the groups on Means of the Post-test scores	209
31	5.8	Graph to compare both the groups on SD of the Post-test scores	210
32	5.9	Performance of subjects from an Experimental group through SOLO levels	226
33	5.10	Performance of subjects from a Control group through SOLO levels	226
34	5.11	Comparison of two groups on Overall test at Prestructure level of SOLO	227
35	5.12	Comparison of two groups on Overall test at Unistructure level of SOLO	227
36	5.13	Comparison of two groups on Overall test at Multistructure level of SOLO	227
37	5.14	Comparison of two groups on Overall test at Relational level of SOLO	228
38	5.15	Comparison of two groups on Overall test at Ext. Abstract level of SOLO	228

39	5.16	Mean and SD on Overall Test-scores of two groups at all the SOLO levels	229
40	5.17	Reactions by an Experimental group about learning of a Chapter – 12	237
41	5.18	Reactions by an Experimental group about learning of a Chapter – 4	241
42	5.19	Reactions by an Experimental group about learning of a Chapter – 8	246
43	5.20	Reactions by an Experimental group about learning of a Chapter – 14	250
44	5.21	Reactions by an Experimental group about learning of a Chapter – 15	255
45	5.22	Reaction-responses by both the groups about self in Mathematics	260
46	5.23(a)	Reactions by both the groups for the Achievement tests (Items 1-15)	265
47	5.23(b)	Reactions by both the groups for the Achievement tests (Items 16-30)	265
48	5.24	Percentage Differences for Reactions on Overall Achievement Test	267
49	5.25	Graph on Reactions of Experimental group for new learning experiences	270
50	5.26	Percentage Differences for reactions on developed Instructional Strategy	271
51	6.1	SOLO Levels: Connecting Previous ➜ Current ➜ Next	300
52	6.2	Diagram for the integration of SOLO and Bloom's Taxonomy	301
