LIST OF TABLES

Table		Page
I.	Distribution of St. Xavier's and Sophia students according to classes, together with their age range, Mean and SD	30
II.	Self Acceptance Categories	39
III.	Characteristics of the Distribution of r's Referring to the Congruence of Perceived Self Acceptance and Ideal Self Acceptance for each Community	45
IV.	Characteristics of the Distribution of Scores of Acceptance of Others for each Community	47
V.	Correlations between Congruence of Perceived Self Acceptance and Ideal Self Acceptance and Scores on the Scales of Acceptance of Others for each Community	49
VI.	Reliability Coefficient of each Zoroastrian (1 to 8) and of each Hindu (9 to 16) for the test on Perceived self Acceptance	51
VII.	Correlations between 16 Students for N=49 Self Referent Statements Assessed for Self Appraisal. Eight are Zoroastrians (1 to 8) and eight Hindus (9 to 16)	53
VIII.	Estimated SD's of Residual Partial Correlations after Extraction of Factors I and II	54

Table		Page
IX.	Centroid Factor Matrix for each Zoroastrian, and for each Hindu, for Perceived self Acceptance, together with Common, Specific, and Error Variances	55
X.	Zoroastrian and Hindu Variances in Factor Loadings together with F Value	58
XI.	Item Analysis of Zoroastrian-Hindu Differences. Chi Square Test Results of some Items of the Scales of Acceptance of Others	62
XII.	Zoroastrian and Hindu Self Acceptance Scores	68
XIII.	Factor I Loadings with Zoroastrian "Weights" Expressed in Terms of Person No. 7, and Hindu "Weights" Expressed in Terms of Person No. 13, together with their Approximate "Weights"	69
XIV.	Zoroastrian Weighted Scores for Factor I Loadings..	69
XV.	Hindu Weighted Scores for Factor I Loadings	70
XVI.	Correlation between Congruence of Perceived Self Acceptance and Ideal Self Acceptance, in Terms of Pearson r's, and Fisher z's for each Zoroastrian Subject	97
XVII.	Correlation between Congruence of Perceived Self Acceptance and Ideal Self Acceptance, in Terms of Pearson r's, and Fisher z's for each Hindu Subject.	98
XVIII.	Correlation between Congruence of Perceived Self	

Page

Acceptance and Ideal Self Acceptance, in Terms of Pearson r's, and Fisher z's for each Cath. Subject 99

XIX. Correlation between Congruence of Perceived Self Acceptance and Ideal Self Acceptance, in Terms of Pearson r's, and Fisher z's for each Muslim Subject 100

XX. Age and Scores of Acceptance of Others for each Zoroastrian Subject 101

XXI. Age, and Scores of Acceptance of Others for each Hindu Subject 102

XXII. Age, and Scores of Acceptance of Others for each Catholic Subject 103

XXIII. Age, and Scores of Acceptance of Others for each Muslim Subject 104
