

Contents

1	INTRODUCTION	1
1.1	Introduction	1
2	PRELIMINARIES	7
2.1	Basic Concepts of Control Theory	7
2.2	Some Basic Results of Nonlinear Functional Analysis	20
3	EXACT CONTROLLABILITY OF NONLINEAR THIRD-ORDER DISPERSION EQUATION	26
3.1	Introduction	26
3.2	Existence of the solution operator W	28
3.3	Reduction of Controllability Problem into Solvability Problem	32
3.4	Main Results	33
3.5	Existence and uniqueness of the operator W by the method of Integral Contractors	35
3.6	Controllability via Integral Contractor Method	40
4	CONTROLLABILITY OF NONLINEAR INTEGRO-DIFFERENTIAL THIRD ORDER DISPERSION SYSTEM	41
4.1	Introduction	41

4.2	Hypothesis and Formulation of problem	42
4.3	Controllability Result	44
5	TRAJECTORY CONTROLLABILITY OF NONLINEAR INTEGRO-DIFFERENTIAL SYSTEM	50
5.1	Introduction	50
5.2	T-controllability of Finite-dimensional Systems	51
5.3	T-controllability of Infinite-dimensional Systems	55
6	EXACT CONTROLLABILITY OF GENERALIZED HAMMERSTEIN TYPE INTEGRAL EQUATION WITH APPLICATIONS	61
6.1	Introduction	61
6.2	Assumptions and Estimates	63
6.3	Compactness of the operator W	65
6.4	Exact Controllability	70
6.5	Applications	74
7	CONTROLLABILITY OF SINGULAR SYSTEMS USING α-TIMES INTEGRATED SEMIGROUPS AND COSINE FUNCTIONS	81
7.1	Introduction	81
7.2	Solution of Singular differential equation in terms of Semigroup operator	82
7.3	Controllability Result via α -times Integrated Semigroup	85
7.4	Solution of Singular Differential Equation in Terms of Cosine Function	87
7.5	Controllability Result via α -times Integrated Cosine Function	93
8	CONTROLLABILITY OF SECOND ORDER SEMI-LINEAR NEUTRAL FUNCTIONAL DIFFERENTIAL INCLUSIONS WITH NON-	

LOCAL CONDITIONS IN BANACH SPACES	96
8.1 Introduction	96
8.2 Definitions and Hypotheses	98
8.3 Controllability Result	101
8.4 Example	108
BIBLIOGRAPHY	110
SUMMARY
