ACKNOWLEDGEMENT

I deem it a matter of great pleasure to express my profound indebtedness and deep sense of gratitude to Dr.Arun Arya, M.Sc., D.Phil, F.P.S.I., Lecturer in Botany, M.S.University of Baroda for introducing me to the fascinating field of Phytopathology and suggesting the Ph.D problem. His erudite guidance, constant encouragements and timely advise helped me to complete this treatise in time.

Prof.R.P.Bhatt, Head, Department of Botany has been a source of inspiration and I deeply acknowledge his help in several ways.

I wish to express my thanks to Prof.A.R.Mehta and Prof.S.D.Sabnis former Heads, Department of M.S.University of Baroda for providing me the facilities investigations to carryout my and kind words o f encouragement extended to me during my research work.

My friends and colleagues were always with me during the good as well as the bad time and I appreciate and acknowledge the help rendered by them. Special thanks are due to Mr.Murukesan, V.K., Mr. Pradeepkumar G., Mrs. Susy Albert, Mr.Anoopkumar, B., Mr. Vinod, K.R. and Mr.Sam Cheriyan for their help and valuable suggestions during the preparation of this treatise.

The-award of Senior Research Fellowship by Council of Scientific and Industrial Research, New Delhi is gratefully acknowledged.

I am thankful to the authorities of Regional Electron Microscope Facility Center and All India Institute of Medical Science for providing me the facilities and training in electron microscopic studies.

My thanks are also due to the Scientists of International Mycological Institute, Kew, London for confirming the identity of fungal cultures.

I take this opportunity to express my sincere gratitude to my mother and sister for their constant encouragements, support and help throughout the tenure of this work, for which I fall short of words.

Finally I place on record my thanks to Mr. and Mrs. Titus for the excellent job of typing.

Baroda
