

A C K N O W L E D G E M E N T S

It gives me pleasure to express my deep sense of gratitude and indebtedness to my guide Dr. R. P. Bhatt for suggesting an interesting problem and providing valuable guidance althrough out. I wish to extend my sincere thanks to Prof. C. H. Pathak (Head of the Botany Deptt. M.S.U.) for his unfailing encouragement and providing the necessary facilities. My deep appreciation goes to Dr. S. D. Sabnis (Reader, Dept. of Botany, M.S.U.) for his keen interest and timely advice. Grateful acknowledgements are due to Prof. M. S. Chennaveeraiah (Head of the Botany Deptt., Karnatak University, Dharwar) for his help and suggestions during the preparation of the manuscript. Thanks are also due to Dr. (Mrs.) A. Sharma, (Reader in Botany, Calcutta University, Calcutta) for her help and suggestions. I am grateful to Prof. C. V. Ramakrishnan (Head of the Biochemistry Deptt., M.S.U.) for allowing me to carryout the work pertaining to D.N.A. estimation in his laboratory.

Thanks are due to 'University Grants Commission' for providing financial assistance. Forest Research Institute (Dehradun); and Botanical Survey of India (Dehradun) were kind enough to send seeds, their services are thankfully acknowledged.

I thankfully mention the help received from
Mr. S. K. Dasgupta for programming and computerisation
of all the calculations.

I am very much thankful to my colleague Mr. M. Sanjappa for
his help. My thanks are also due to Shri P. T. Dindorkar, Artist
of the Department for photography work and Shri P. S. Bhoite
for typing work.

Lastly, I must thank all my departmental colleagues and
friends for their help which made the task easy and pleasant.

BARODA,
1st September, 1976.

Aparna Dasgupta
