**Capital Formation and Financial Assets**

(Million J.D.)

| Year | Gross fixed capital formation | Less liquid financial assets | Highly liquid financial assets | Total financial assets |
|------|-------------------------------|------------------------------|--------------------------------|------------------------|
| 1970 | 25.20                         | 42.80                        | 129.13                         | 171.93                 |
| 1971 | 30.70                         | 82.50                        | 135.11                         | 217.61                 |
| 1972 | 36.30                         | 86.00                        | 146.47                         | 232.47                 |
| 1973 | 47.20                         | 91.95                        | 176.05                         | 268.00                 |
| 1974 | 63.20                         | 109.00                       | 220.57                         | 329.57                 |
| 1975 | 87.90                         | 123.00                       | 289.65                         | 412.65                 |
| 1976 | 138.00                        | 145.00                       | 380.37                         | 525.37                 |
| 1977 | 197.00                        | 158.00                       | 470.26                         | 628.26                 |
| 1978 | 229.10                        | 205.00                       | 613.24                         | 818.24                 |
| 1979 | 294.50                        | 230.00                       | 784.32                         | 1014.32                |
| 1980 | 452.90                        | 273.00                       | 1000.42                        | 1273.42                |
| 1981 | 672.60                        | 295.15                       | 1212.09                        | 1507.24                |
| 1982 | 649.40                        | 323.00                       | 1443.81                        | 1766.81                |
| 1983 | 570.00                        | 391.00                       | 1677.59                        | 2068.59                |
| 1984 | 546.60                        | 414.50                       | 1834.08                        | 2248.58                |
| 1985 | 385.20                        | 450.00                       | 1977.66                        | 2427.66                |
| 1986 | 410.30                        | 514.50                       | 2181.27                        | 2695.77                |
| 1987 | 468.40                        | 795.00                       | 2501.84                        | 3296.84                |
| 1988 | 508.20                        | 790.00                       | 2773.62                        | 3563.62                |
| 1989 | 547.40                        | 783.10                       | 3095.88                        | 3878.98                |
| 1990 | 691.40                        | 754.15                       | 3203.82                        | 3957.97                |
| 1991 | 608.70                        | 983.00                       | 3810.10                        | 4793.10                |
| 1992 | 980.20                        | 1414.00                      | 4266.90                        | 5680.90                |
