I will always be thankful to my friends Dharmesh, Beena, Deven, Gopal and Shalini for their help.

I whole heartily thank my friends, Dr. Urmila Shinde and Dr. Ajay Pillai for sharing my good as well as bad times, encouraging me, helping me in all possible ways they could and for always advising me to have patience throughout the duration of my work.

This acknowledgement will be incomplete without appreciating the moral support, inspiration and constant encouragement of my parents, sister and brother. Without their best wishes, deep understanding, moral support, constant encouragement and patience this work would not have been the same; it will be impossible to find appropriate means to fulfill the eternal debt, which I owe them. The blessings of my parents and God was always with me throughout the course of this work

Finally it is inevitable in this project, that omissions, occasional errors and lapses in the accuracy of interpretations might have escaped detection. I hope that any mistakes are minor and minimum and I accept the full and exclusive responsibility for them.
