

Appendix G
List of English Medium Schools

Sr. No.	Name of the School	Address of the School
1	Saint Kabir School	Vasana Road, Vadodara
2	Basil School	Mukti Nagar, Vadodara
3	Sabari vidyalaya	Vasana Road, Vadodara
4	Sofiya English Medium School	Besides Narmada Canal, Gorwa, Vadodara
5	Vidyut Board Vidyalaya	Old Padra Road, Vadodara
6	Gayatri Vidyalaya	Gotri, Vadodara
7	Shaishav school	Gotri sevasi road, vadodara
8	Meera the happy School	Nr.Kalali Fatak, Vadodara
9	Vidya Vihar Vidyalaya	Subhanpura Vaodara
10	Kelavani Trust English Medium school	Nr. Akota Stadium, Vadodara
11	Vidya Mandir Vidyalaya	Gotri, Vadodara
12	Baroda High School	Alkapuri, Vadodara
13	The Mothers School	Gotri, Vadodara
14	Oxylum Convent	Makarpura Road, Vadodara
15	Crystal School	Waghodia Road, Vadodara
16	Baroda High School	Danteshwar, Vadodara
17	Shreyas Vidyalaya	Polo Ground, Vadodara
18	Sadhu Vasavani Vidya Mandir	Madan Zampa Road, Vadodara
19	Zenith School	Pratap Nagar, Vadodara
20	Shreyas Samarpan Vidyalaya	Manjalpur, Vadodara
21	Motnath Vidyalaya	Waghodia Road, Vadodara
22	Ambe School	Manjalpur, Vadodara
23	Don Bosco School	Makarpura Road, Vadodara
24	Little Flower School	Siddhanath Road, Vadodara
25	Shri Ambe Vidyalaya	Waghodia Road, Vadodara
26	Eklavya Vidyalaya	Harni Road, Vadodara
27	VidyaMandir Vidyalaya	Harni Warasia Road, Vadodara
28	Dadi Chananai English Medium School	Near RTO, Vadodara
29	Hariseva Ishwaribai Baxani English Medium School	Vadodara
30	Adarsh Primary School	New VIP Road, Vadodara
31	Navyug English Medium School	New Sama Road, Vadodara
32	Ambe Vidyalaya	Sama Savali Road
33	Jeevan Sadhana Vidyalaya	Karelibaug, Vadodara

Sr. No.	Name of the School	Address of the School
34	Bright School	VIP Road, Vadodara
35	Ashoka Hall Public School	Vemali Vadodara
36	Urmi School	Sama Savali Road, Vadodara
37	Shin and kids School	VIP Road, Vadodara
38	Tejas Vidyalaya	Ellora Park, Vadodara
39	Saint Amreesh School	Channi, Vadodara
40	Ambe Vidyalaya	VIP Road, Vadodara
41	Vidyani Vidyalaya	Sama Road, Vadodara
42	Mar Gregorious Memorial School	New Sama Road, Vadodara
43	Modern Vidyalaya	Tandelja, Vadodara
44	Vidyakunj high School	Munjmahuda, Vadodara
45	Holly Angles School	Laxmipura Road, Vadodara
46	Shri Sanskriti Vidyalaya	VIP Road, Vadodara
47	Parivar Vidyalaya	Ajwa Road, Vadodara
48	Convent of Jesus and Mary Girls High School	Fatehgunj, Vadodara
49	Roshan Memorial Primary School	Nava Yard, Vadodara
50	Himgira Vidyalaya	Alkapuri Vadodara
51	Saint Anns School	Gorwa, Vadodara
52	Saint Johns	Tarsali Vadodara
53	Navjeevan High School	Bagikhana Road, Vadodara
54	Yansi Primary School	Makarpura, Vadodara
55	Shri Hare Krishna Vidyalaya	Danteshwar, Vadodara
56	Rosary School	Pratapgunj, Vadodara
57	Utkarsh Vidyalaya	Gotri Road, Vadodara
58	Baroda high School (Baghikhana)	Pologround, Vadodara
59	Baroda high School (ONGC)	ONGC colony, Vadodara
60	University Experimental School	Station Road, Vadodara
61	Saint Basil School	Makarpura, Vadodara

Appendix H
Powerpoint presentation by Abdul Kalam

This is the year 2070

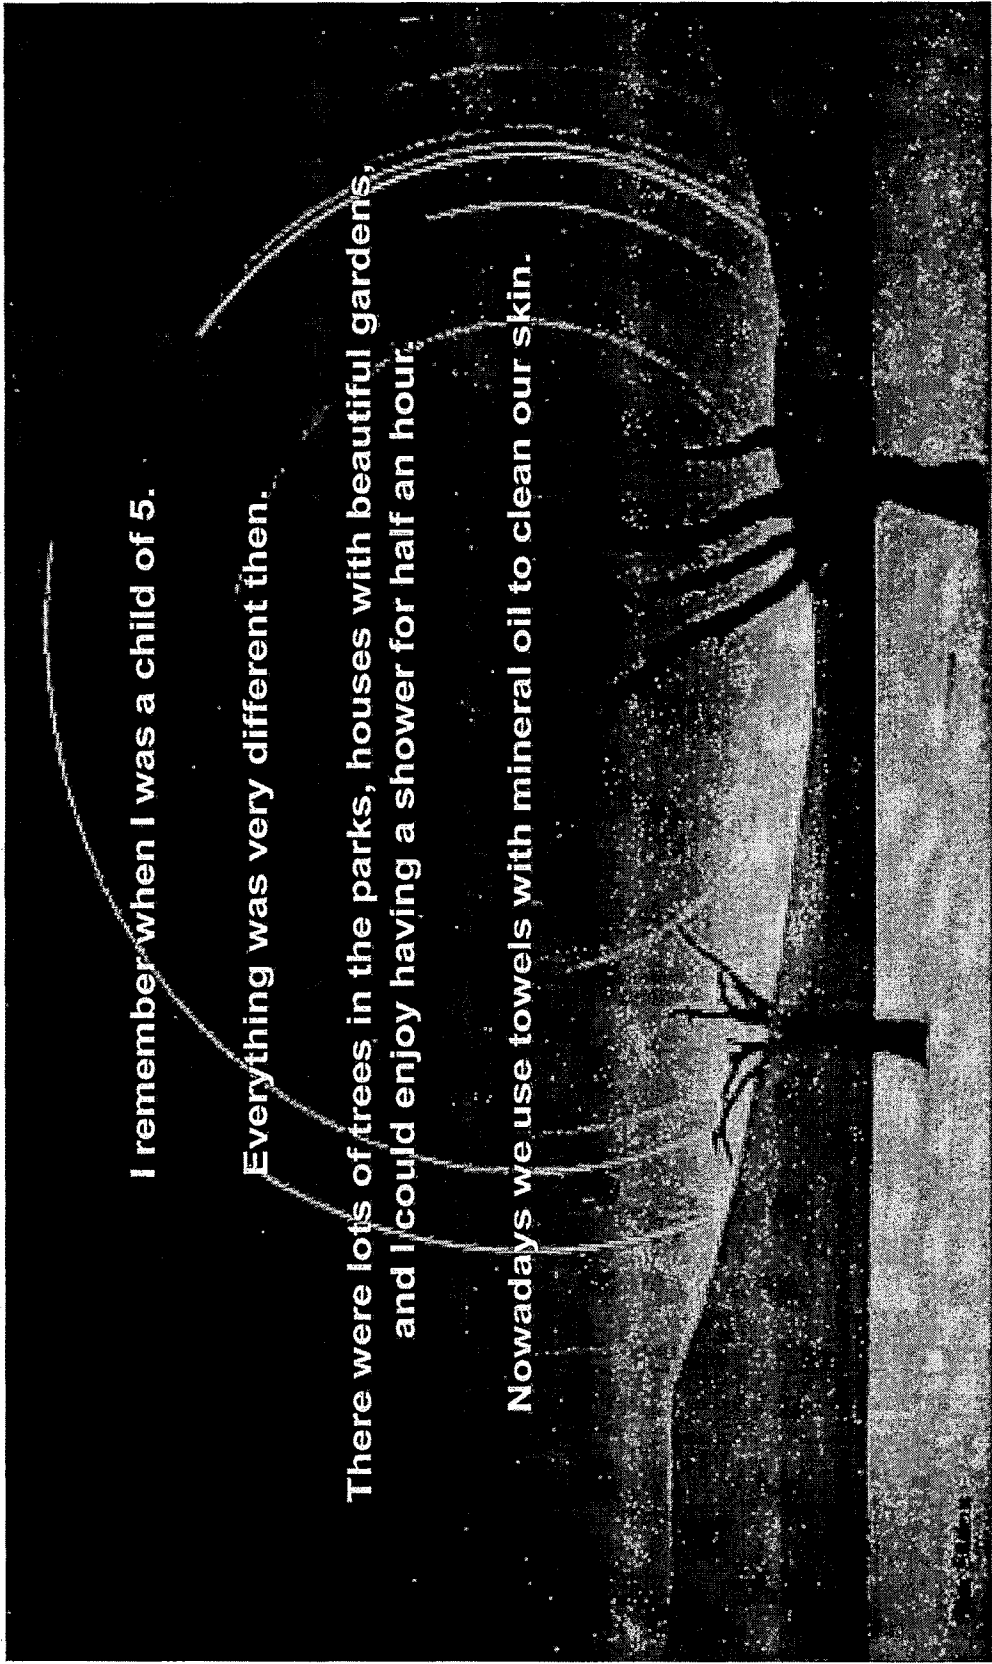

I have just turned 50, but my appearance
is of somebody of 85

I suffer from serious kidney problems,
because I do not drink enough water.

I'm afraid I do not have
much time left to live.

I am one of the oldest people
in this society.

Rita Sides

I remember when I was a child of 5.

Everything was very different then.

There were lots of trees in the parks, houses with beautiful gardens,
and I could enjoy having a shower for half an hour.

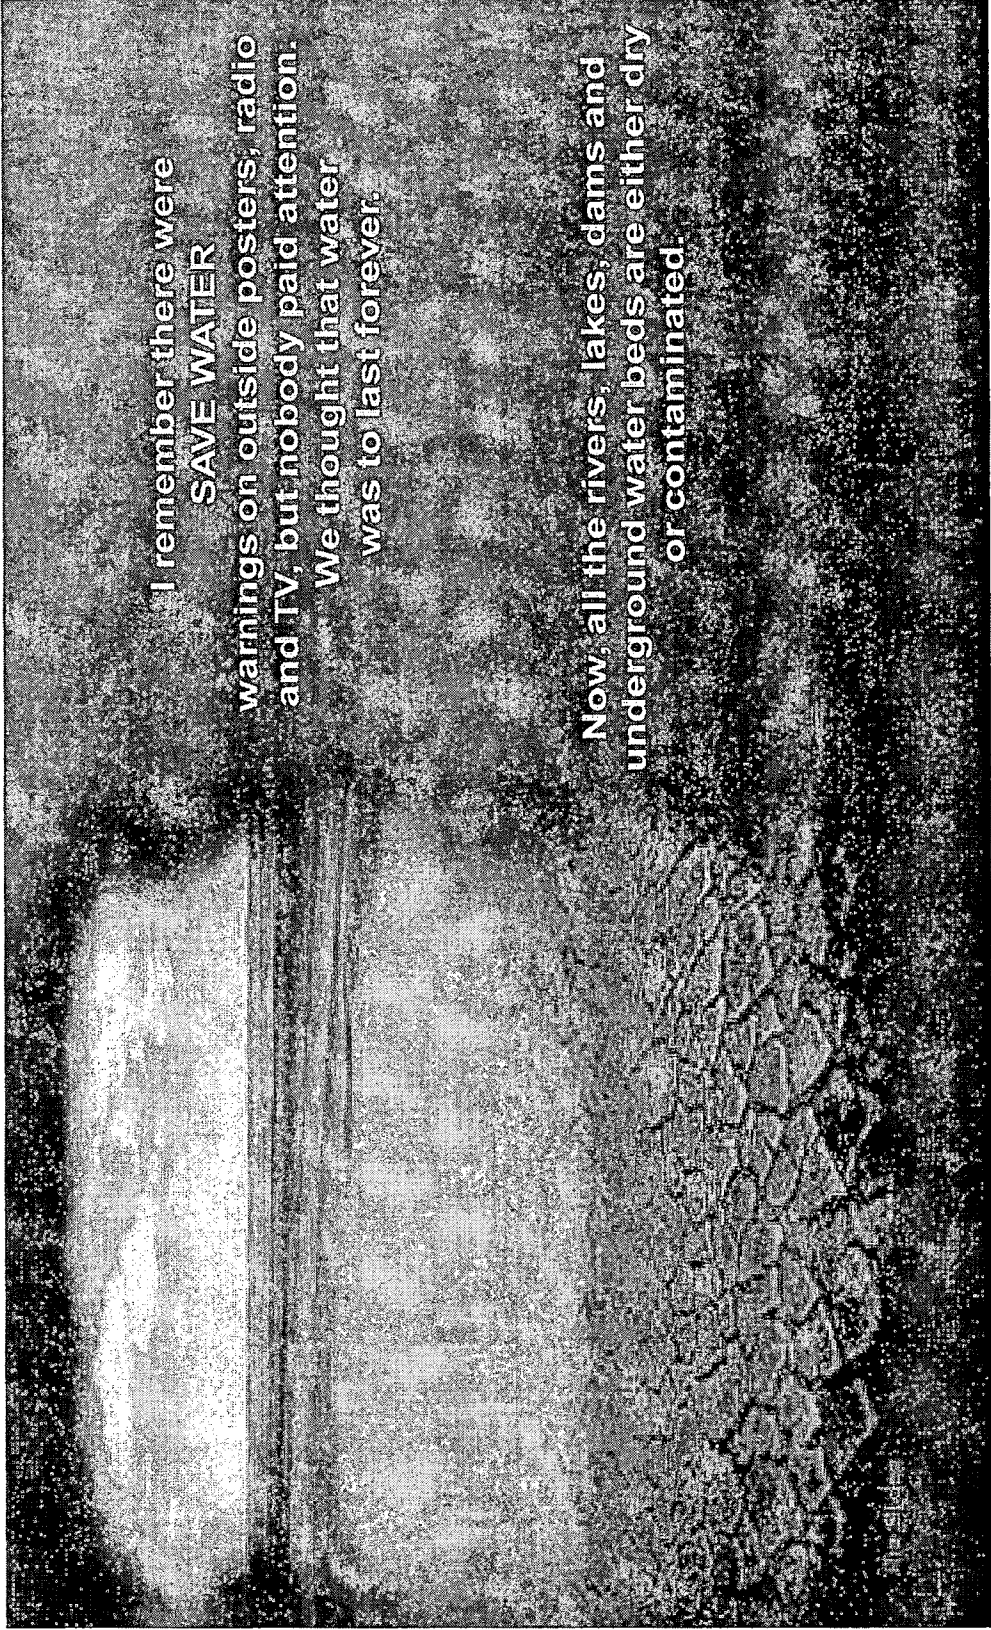

Nowadays we use towels with mineral oil to clean our skin.

Before, women had beautiful hair.

Now, we have to shave our heads
to keep them clean without the use of water.

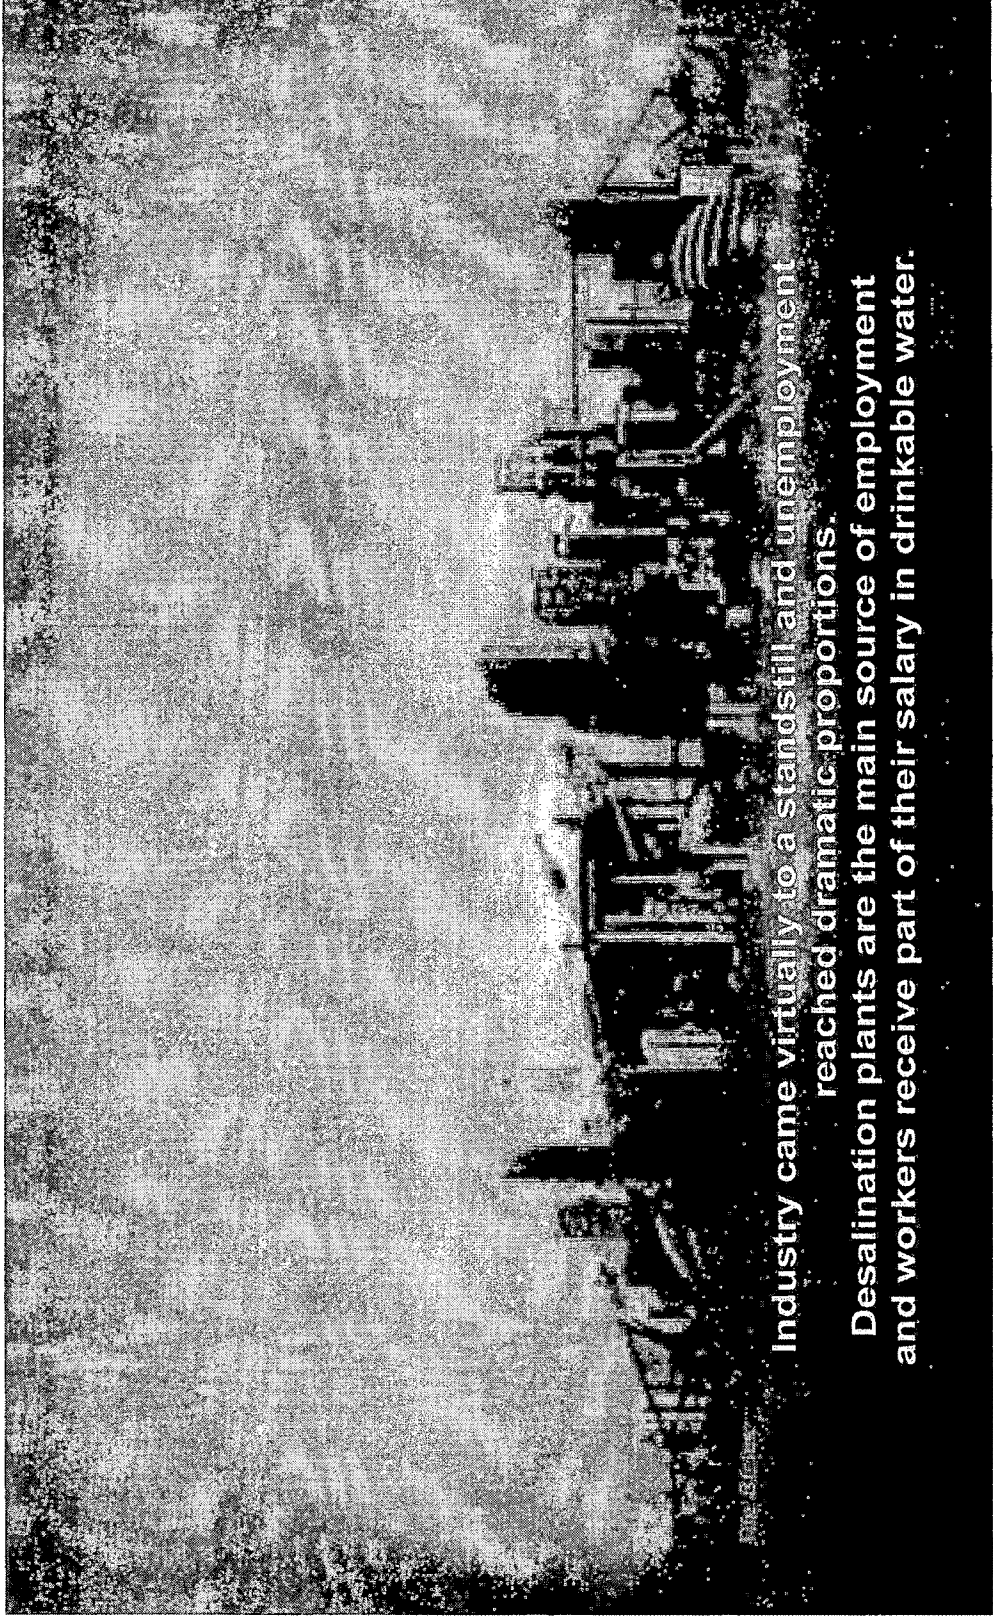

Then, my father washed his car with
water coming out of a hosepipe.

Now, my son does not believe that
water could be wasted that way.

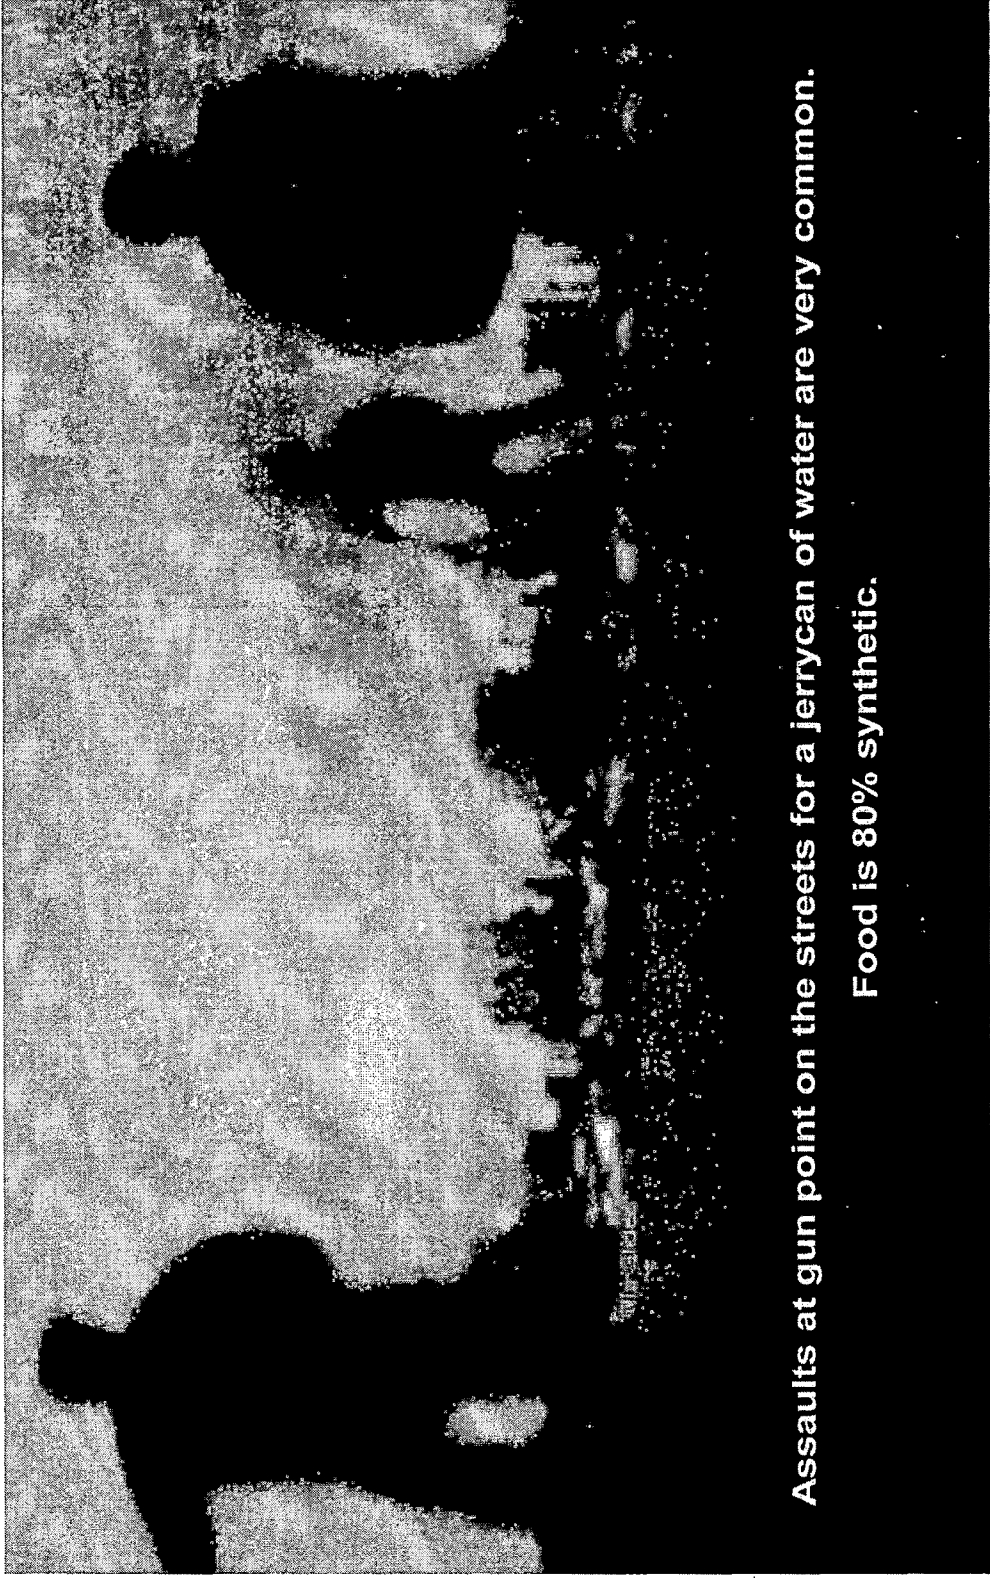

I remember there were
SAVE WATER
warnings on outside posters, radio
and TV, but nobody paid attention.
We thought that water
was to last forever.

Now, all the rivers, lakes, dams and
underground water beds are either dry
or contaminated.

Industry came virtually to a standstill and unemployment reached dramatic proportions.

Desalination plants are the main source of employment and workers receive part of their salary in drinkable water.

Assaults at gun point on the streets for a jerrycan of water are very common.
Food is 80% synthetic.

Before, the recommended quantity of water to drink
for an adult was 8 glasses a day.

Nowadays, I am only allowed half a glass.

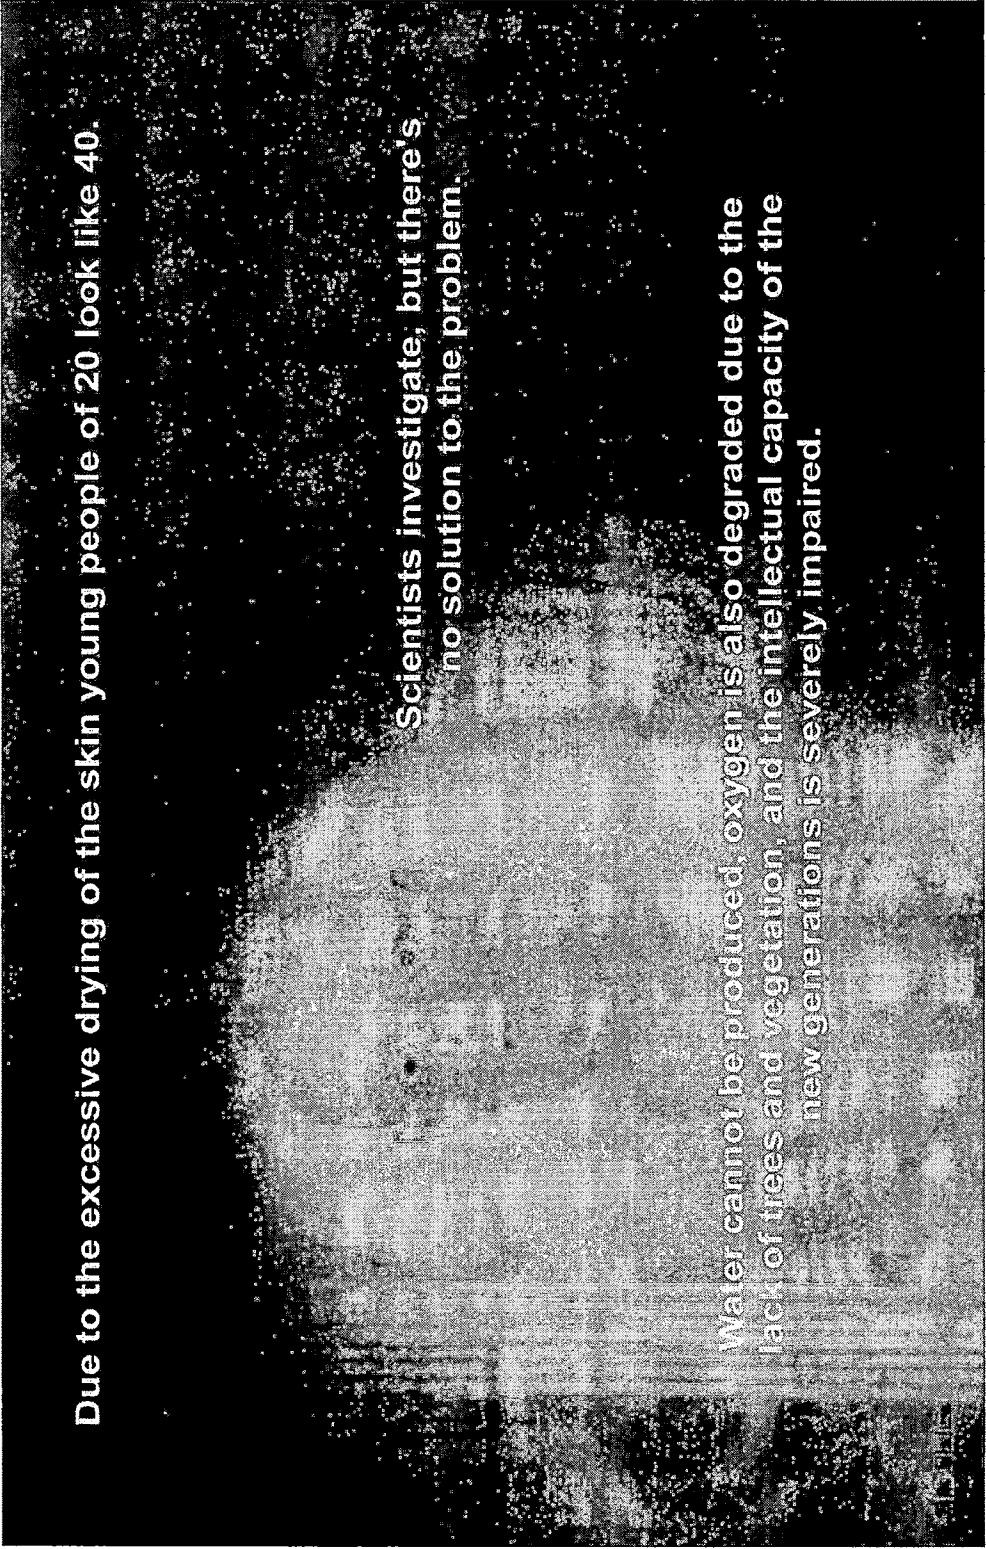

We now have to wear disposable clothing,
and this increases the amount of litter.

We are using now septic tanks,
because the sewerage system does not work for lack of water.

The outside appearance of the population is horrible: wrinkled, emaciated bodies, due to dehydration, full of sores caused by ultra violet radiation, now stronger without the protective shield of the ozone layer.

Skin cancer, gastrointestinal infections and of the urinary tracts are the main causes of death.

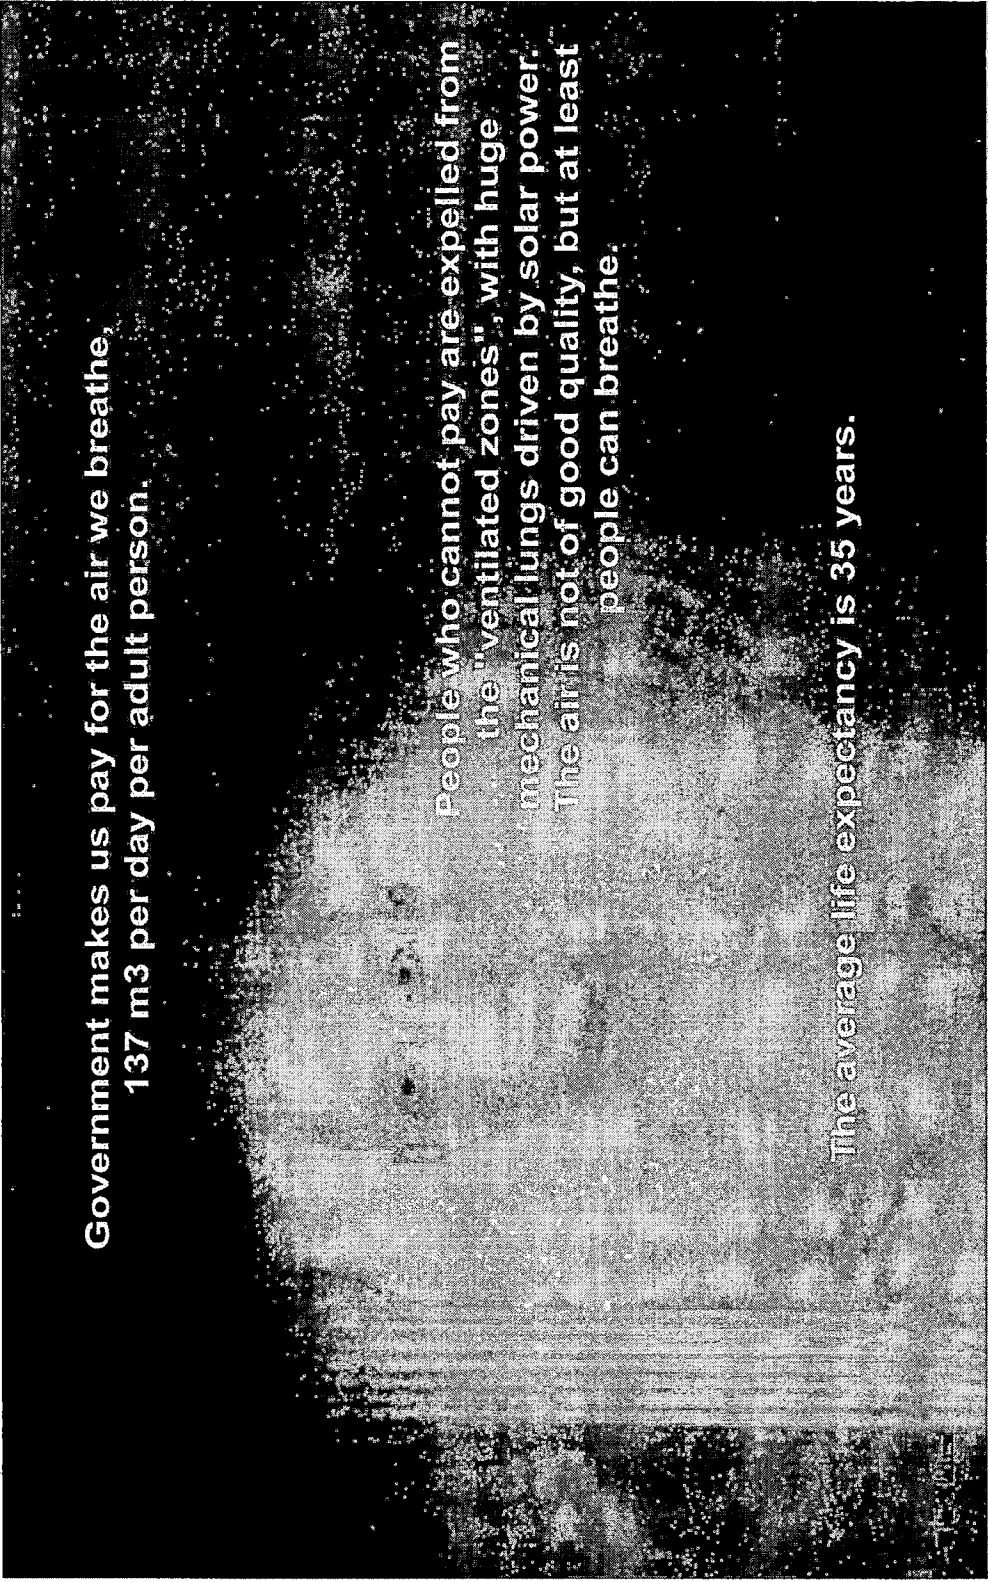

Due to the excessive drying of the skin young people of 20 look like 40.

Scientists investigate, but there's
no solution to the problem.

Water cannot be produced, oxygen is also degraded due to the
lack of trees and vegetation, and the intellectual capacity of the
new generations is severely impaired.

The morphology of spermatozoa in many men has changed.

As a consequence, babies are born
with deficiencies, mutations and
physical deformities.

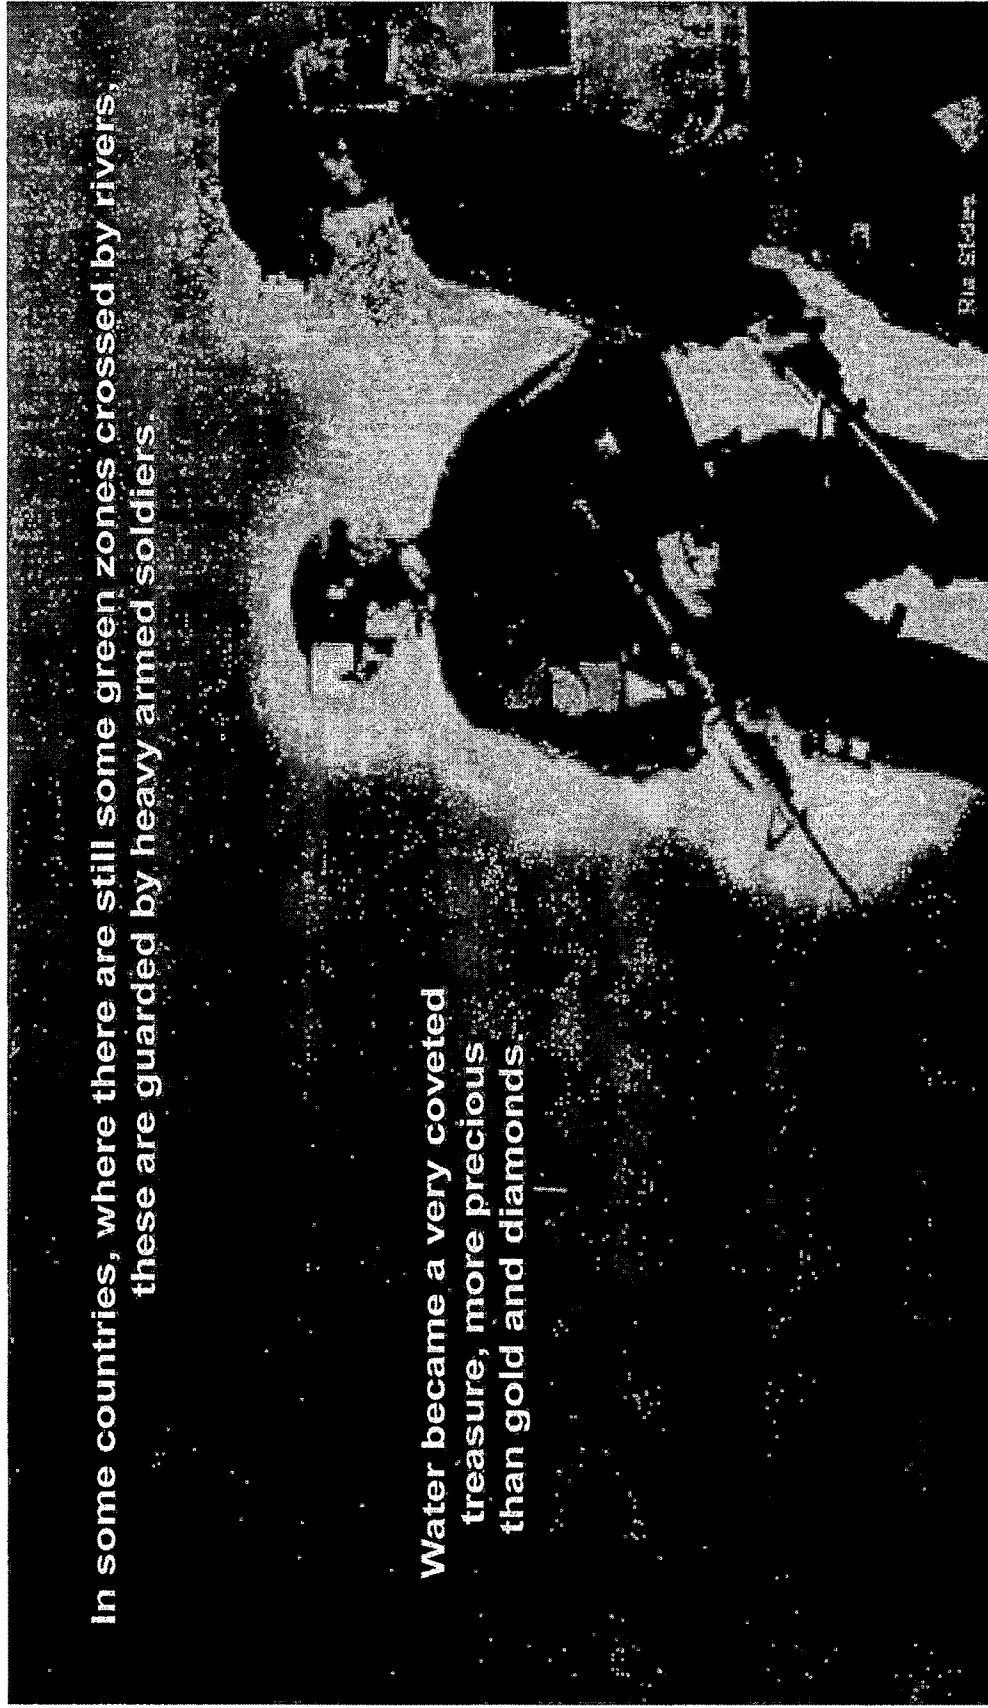

Government makes us pay for the air we breathe,
137 m3 per day per adult person.

People who cannot pay are expelled from
the "ventilated zones" with huge
mechanical lungs driven by solar power.
The air is not of good quality, but at least
people can breathe.

The average life expectancy is 35 years.

In some countries, where there are still some green zones crossed by rivers,
these are guarded by heavy armed soldiers.

Water became a very coveted
treasure, more precious
than gold and diamonds.

Where I live, there are no trees, because it seldom rains.
When it happens to register some precipitation, it is of acid rain.

The seasons have been severely affected
by the atomic tests and by contamination
from the 20th century polluting industries.

We were warned to look after the environment, but nobody cared.

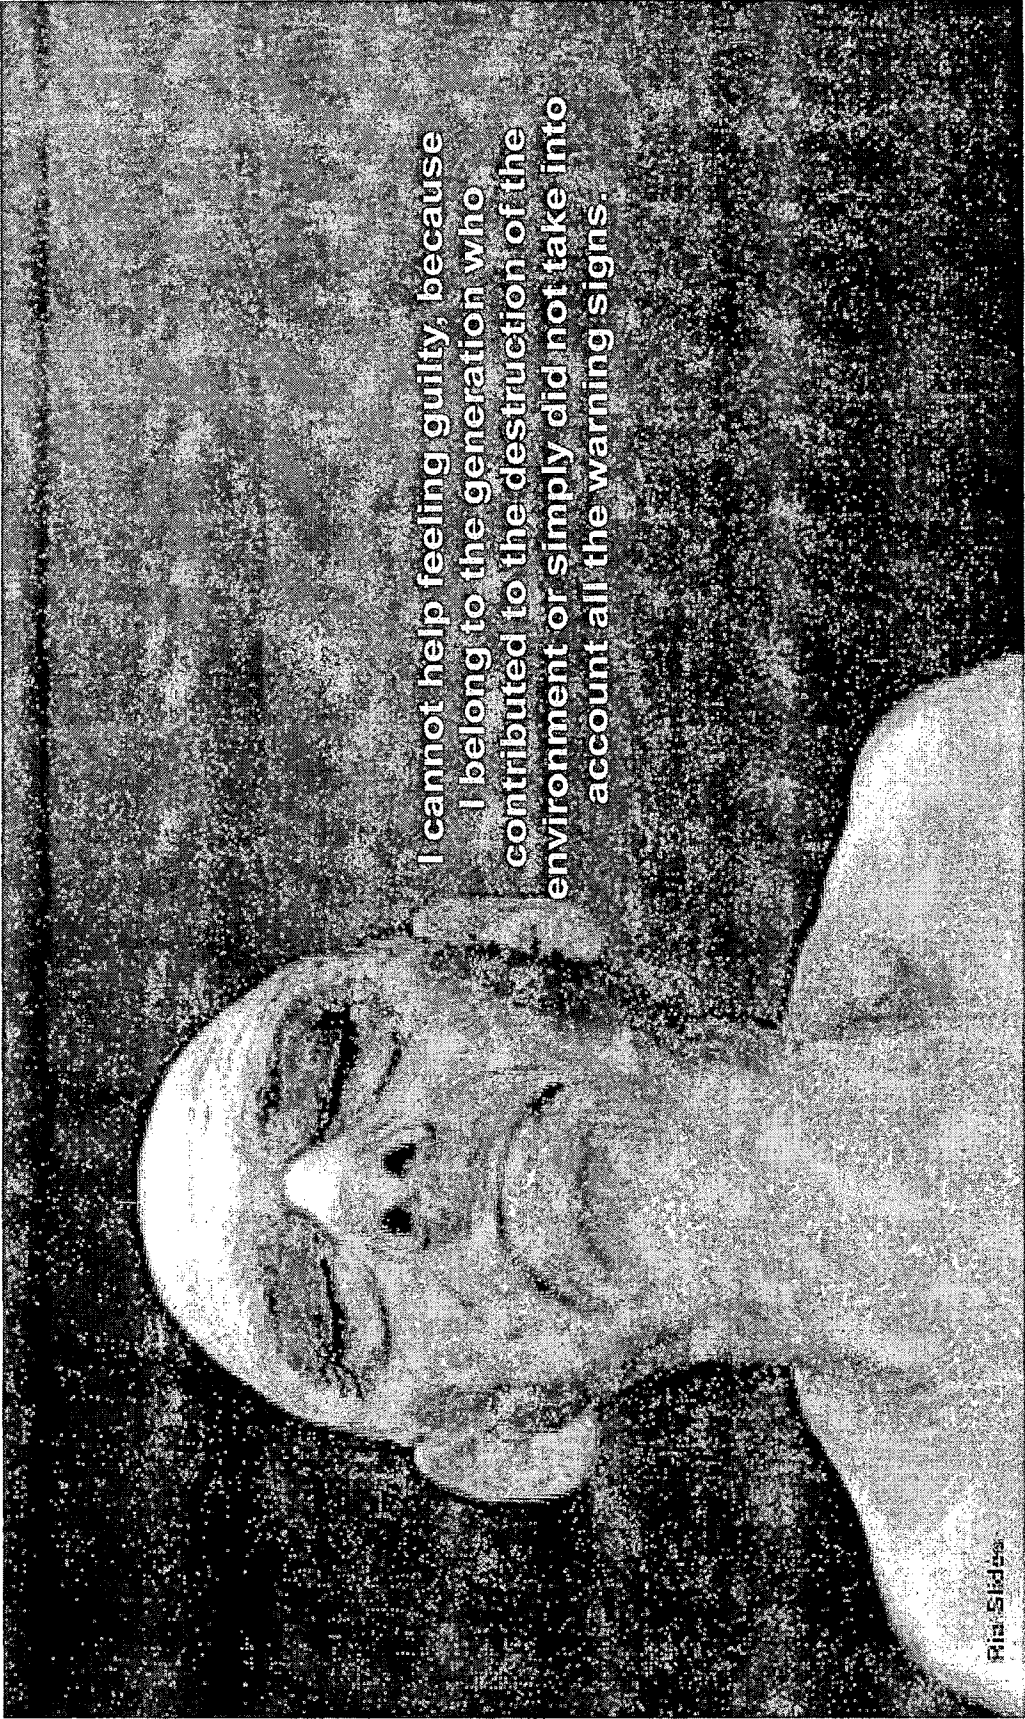

When my son asks me to talk about my youth, I tell him about the green fields,
the beauty of the flowers, the rain, how pleasant was to swim and fish in the rivers
and dams, to drink all the water we could, and how healthy people was.

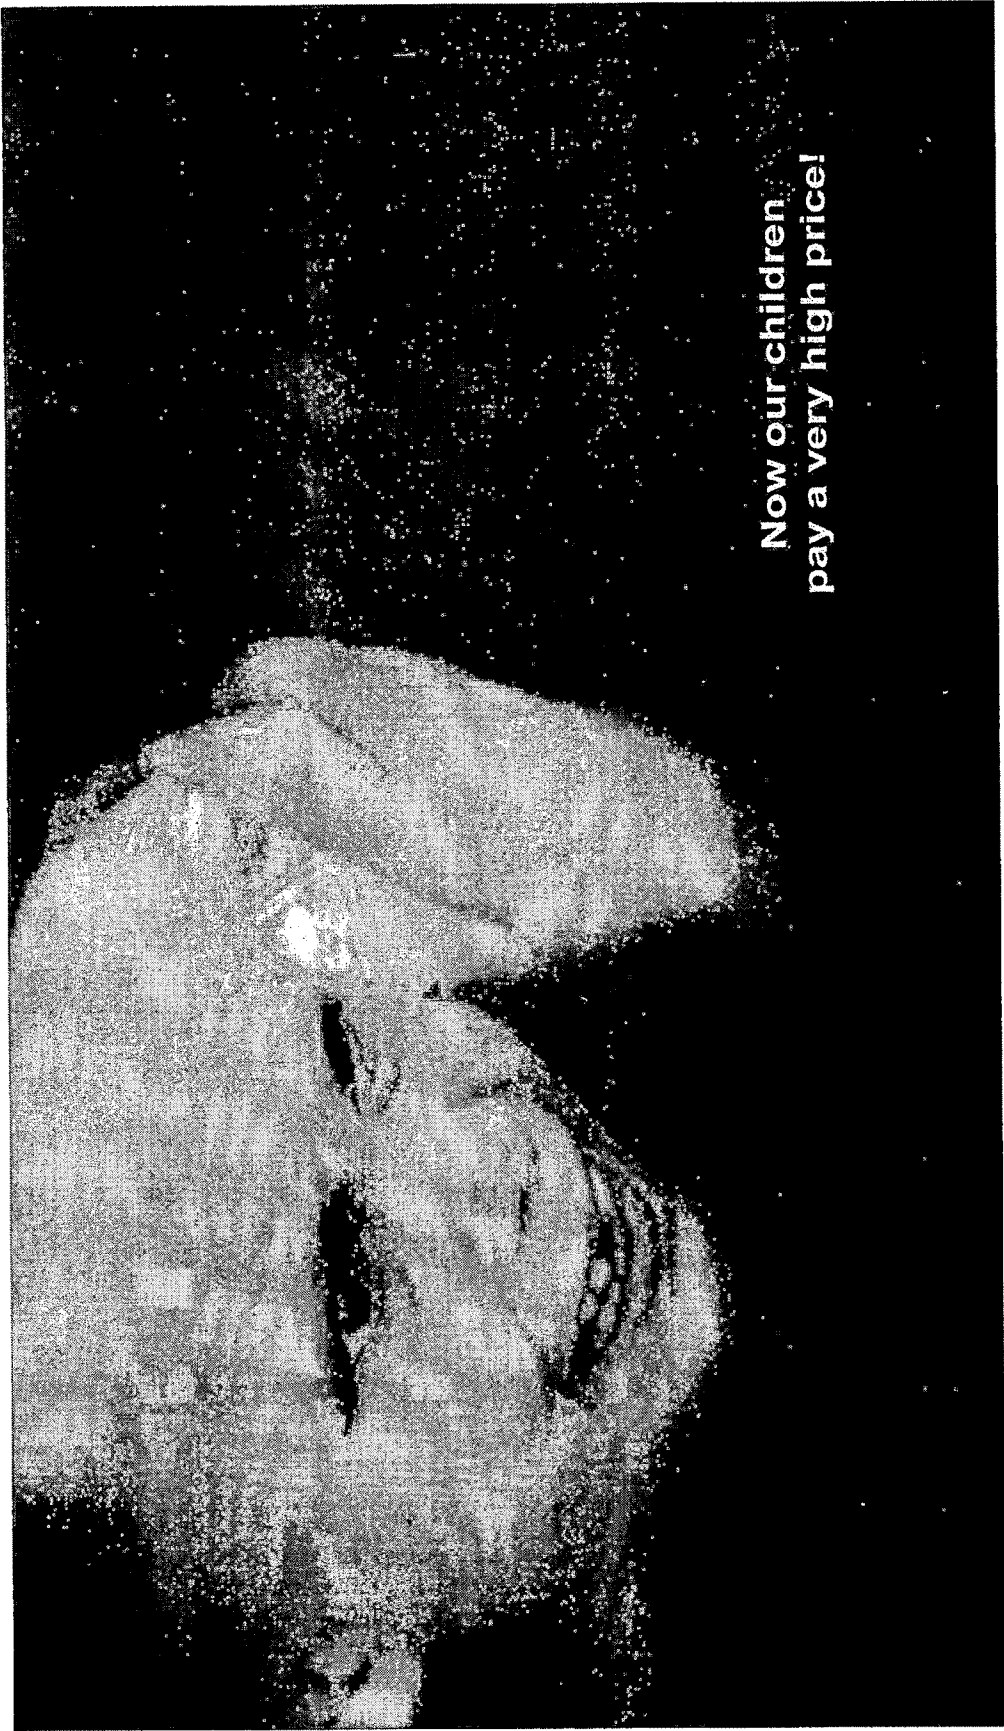

He asks: Daddy! Why there is no water?

Then, I feel a lump in my throat!

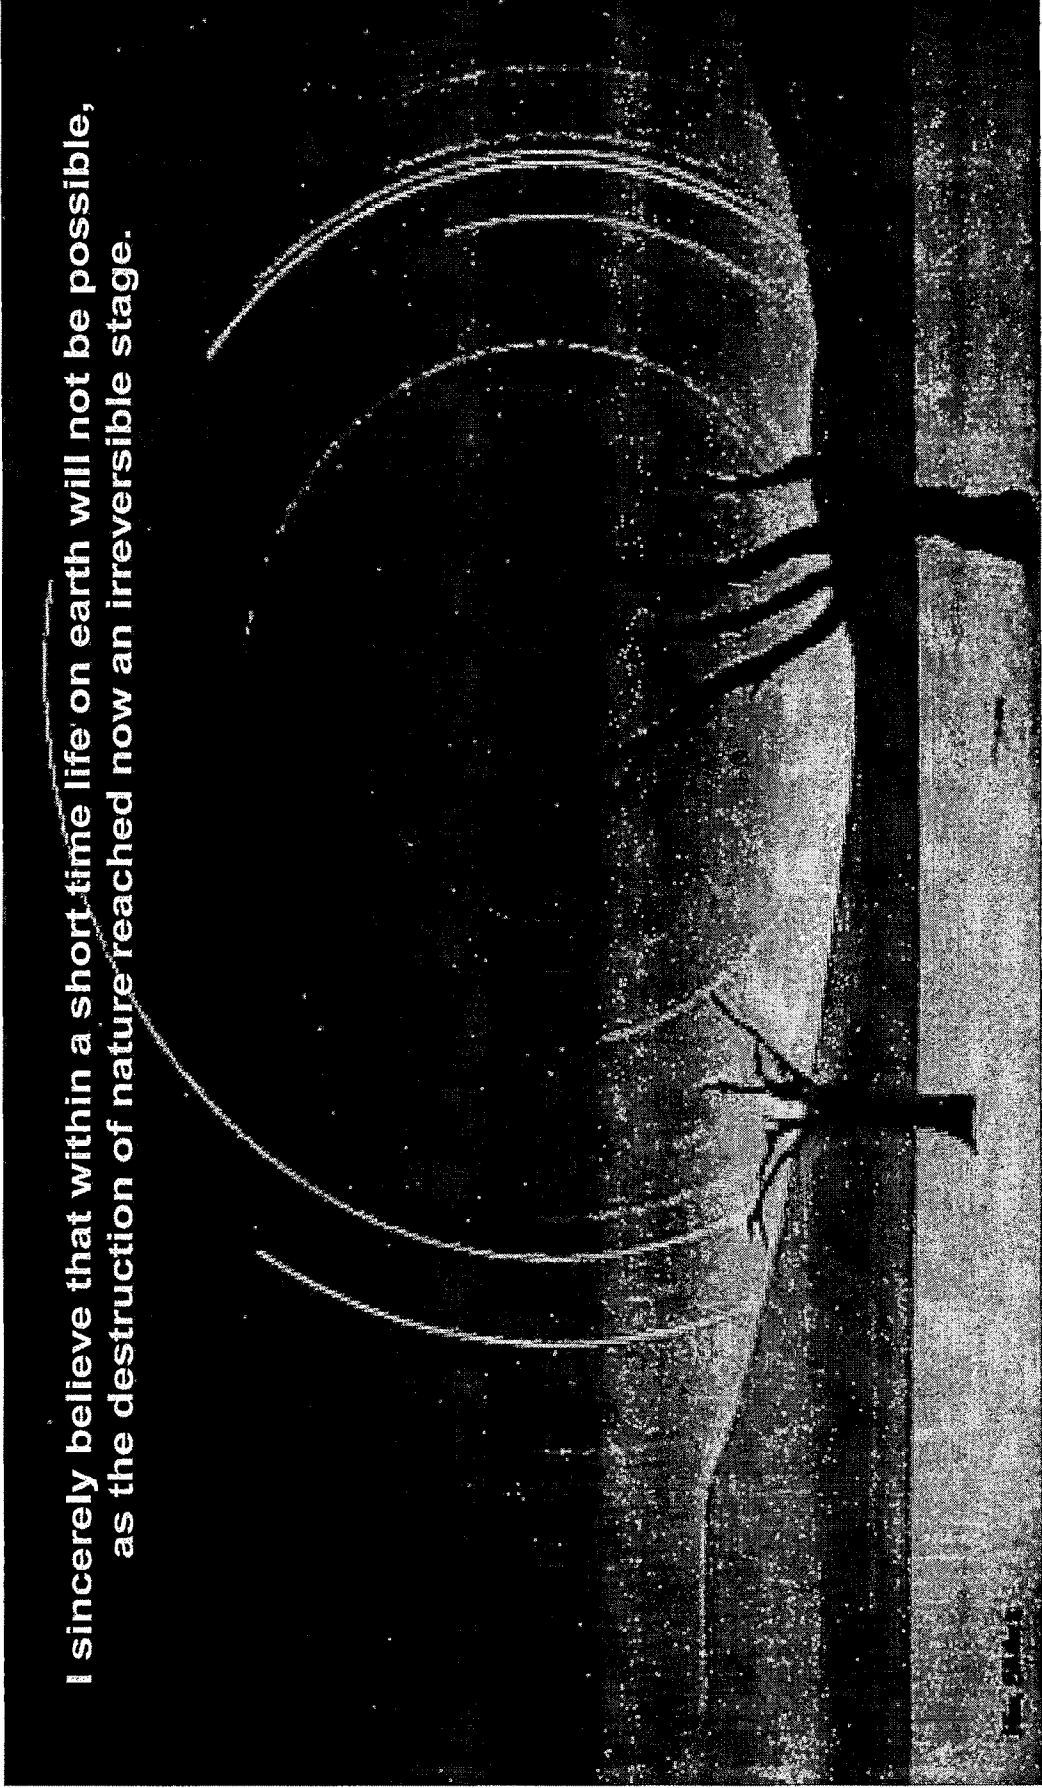

I cannot help feeling guilty, because
I belong to the generation who
contributed to the destruction of the
environment or simply did not take into
account all the warning signs.

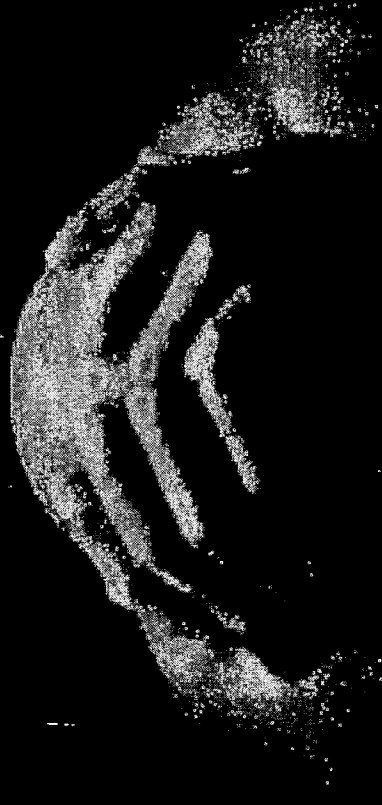

Now our children
pay a very high price!

I sincerely believe that within a short time life on earth will not be possible,
as the destruction of nature reached now an irreversible stage.

How I would like to go back and make mankind understand...

...that we still had time to save our Planet Earth.

End slides

This show was made by a most
very talented person, named
A P J Abdul Kalam
I thank you.
