

LIST OF FIGURES

Fig. No.	Title	Page No.
1.	Calibration Curve for estimation of Rifampicin in PBS pH 7.4	123
2.	Calibration Curve for Gentamicin Sulphate in distilled water.	124
3.	Particle size distribution of selected batches of Rifampicin	125
4.	Particle size distribution of selected batches of Gentamicin.	126
5.	Design of Diffusion cell.	146
6.	Validation of diffusion apparatus.	147
7.	Diffusion of drug from selected batches of Rifampicin Niosomes.	148
8.	Diffusion of drug from selected batches of Gentamicin Niosomes.	149
9.	Calibration curve for Rifampicin in Liver extract.	172
10.	Calibration curve for Rifampicin in Lung extract.	173
11.	Calibration curve for Rifampicin in Kidney extract.	174
12.	Calibration curve for Rifampicin in Serum.	175
13.	Invivo distribution of Rifampicin in various organs and serum of rats. (Intravenous administration) (13a, 13b, 13c, 13d).	176-179

14.	Invivo distribution of Rifampicin in various organs and serum of rats. (Intratracheal instillation) (14a, 14d).	180-181
15.	Calibration curve for Gentamicin in Liver extract.	182
16.	Calibration curve for Gentamicin in Lung extract.	183
17.	Calibration curve for Gentamicin in Kidney extract.	184
18.	Calibration curve for Gentamicin in Serum.	185
19.	Invivo distribution of Gentamicin in various organ and Serum of rats. (Intravenous administration) (19a, 19b, 19c, 19d)	186-189
20.	Invivo distribution of Gentamicin in various organ and Serum of rats. (Intratracheal instillation) (20a, 20d)	190-191
21.	Leakage rate study for Rifampicin Niosomes.	206
22.	Leakage rate study for Gentamicin Niosomes.	207
