

APPENDIX VI

TABLE 43

Percentage Distribution of the Households of
the primary and Sub sample by the
Hours Reported for Household
Work (Technique I Data)

Time spent in household work (hours per week)	Percentage of households	
	Sample I* (N=120)	Sample II** (N = 39)
31 - 40	11.7	12.8
41 - 50	15.8	20.5
51 - 60	22.5	20.5
61 - 70	25.8	25.6
71 - 80	11.7	5.1
81 - 90	7.5	10.3
91 - 100	5.0	5.1

* Primary sample ** Sub sample.

$$\chi^2 = 10.683^{NS} \text{ at } .05 \text{ level, d.f.} = 4$$

(Degree of freedom for the comparison of
distributions is $n - 3$ i.e. $7 - 3 = 4$)
