TO WHOMSOEVER IT MAY CONCERN

I have gone through the developmental work based on Enneagram theory for the enhancement of emotional intelligence of student teachers by Sr.Eva Justina.

To my knowledge, this developmental work covers new research areas to help educators work effectively making use of the Enneagram personality typology. The perspective, which she is pursuing, will surely enhance understanding of oneself as a teacher and the students under his/her care. Also it will benefit the personal growth of teachers in their understanding of their emotions that make up their teaching style.

I wish her all the best for all the efforts she is making to contribute in the field of education.

Dr.PT Joseph
