

Publications and presentations

* List of Publications and communications:

1. Simultaneous Quantitative Resolution of Atorvastatin Calcium and Fenofibrate in Pharmaceutical Preparation by Using Derivative Ratio Spectrophotometry and Chemometric Calibrations, published in ***Analytical Sciences*** vol. 23, 2007 pages 445-457
2. Validation and application of HPLC and Spectrophotometric methods for simultaneous estimation of Nebivolol and Hydrochlorothiazide: A novel approach to multivariate calibrations by R - software environment. (**accepted in *Journal of AOAC International***)
3. Validation and application of spectrophotometric methods for simultaneous estimation of Amlodipine besylate and Atorvastatin calcium by chemometric calibrations and HPTLC methods. (**Communicated to *Spectra Chemica Acta***)
4. Validated High-Performance Liquid Chromatographic and Chemometric based Spectrophotometric determination of Ramipril and Atorvastatin in pharmaceutical dosage forms (**Communicated to *Analytical Letters***)
