

ACKNOWLEDGEMENT

With much sincerity, I express my profound sense of gratitude to Prof. B.K Chakraborty, for introducing me to this subject, and under whose valuable guidance I could complete this research work. His constant encouragement and valuable criticisms throughout the work is greatly acknowledged.

I am thankful to Prof. S. Seshadri, Head , Department of Foods and Nutrition and other staff members for providing me the necessary facilities to carry out the research work in the department.

I express my sincere thanks to the panel of judges selected among the staff and student members of department of Foods and Nutrition for their immense co-operation and critical evaluation of the products and I am thankful to Scientist's incharge in M.J. Institute of Research, for permitting me to carry out the microbiological analysis in their laboratory.

I take this opportunity to express my appreciation and special thanks to all my friends for their keen and personal interest and for being a constant source of inspiration. I wish to extend my thanks to Mr Rangwala for his willing assistance in typing this thesis.

I express my deep sense of gratitude and appreciation to my family members for their constant encouragement and moral support for persuing this degree.

Syed R. Nisar
