

APPENDIX V

ATTITUDE SCALE

	Disagree	Undecided	Agree
(1) Content covered in each unit of software is sufficient.			
(2) Concepts are clarified properly.			
(3) For understanding the concepts clearly time required is less. When they are taught through software.			
(4) Illustrations/examples provided in the software are adequate for the purpose.			
(5) Example given in the software helps in the concept clarity.			
(6) Illustrations/examples are easy to understand.			
(7) The language used in the software is easy to understand.			
(8) Teaching points given under each chapter are logically sequenced.			
(9) Figures in the software helps in the clarity of concepts.			
(10) Figures shown in the software are drawn clearly.			

- (11) Material presented through software is interesting.
-
- (12) The material provided helps in self study.
-
- (13) The material provided has been prepared from different sources.
-
- (14) The information provided in the software is upto date.
-
- (15) The software prepared takes into consideration student's previous level of knowledge in this subject.
-
- (16) Pattern of evaluation is proper.
-
- (17) Evaluation items are very clear.
-
- (18) Answer keys given for each evaluation items help in self learning.
-
- (19) The whole preparation of software helps in concept concretization.
-
- (20) The number of evaluation items are adequate for providing feedback.
-
- (21) Evaluation items cover the entire subject matter.
-

(22) The evaluation items
are objective in nature, so
the evaluation done is very
clear.

(23) Instruction given in
the instructional manual are
clear.

(24) Instructional manual
contains all information
about the software.

(25) Learning through
software way very
interesting as it is the
first experience.
