

Contents	Page NO.
1.0 Introduction	1
2. 0 Experimental	
2.1 Collection and Identification of the plants	28
2.2. Pharmacognostic studies	28
2.3 Phytochemical studies	29
2.4 Development of standardization parameters for different plant drugs	30
2.5 Stability Studies of Methanolic extract of the plants	47
2.6 Evaluation of market samples of <i>L. reticulata</i>	48
2.7 Evaluation of <i>Ayurvedic</i> formulation- <i>Jivantyadi Ghrita</i> and comparison of various market samples	50
2.8 Biological assessment of different extracts from the selected plants.	53
2.8.1 <i>In vitro</i> antioxidant activity of plant extracts	53
2.8.4 Acute toxicity studies	58
2.8.5 Assessment of Hepatoprotective activity of plant extract	
2.9.5.1 In- <i>Vivo</i> Evaluation of Hepatoprotective activity	58
2.9.5.2 <i>in vitro</i> Evaluation of Hepatoprotective activity	61
2.8.6 Assessment of comparative adaptogenic potential shown by methanolic extracts in swim endurance test	62
2.8.7 Assessment of lactogenic potential of the plant extracts	65
2.8.7.1. Assessment of lactogenic potential of extracts of <i>D.volubilis</i> and <i>P.microphylla</i> in lactating rats and comparison with extracts of <i>L.reticulata</i>	65
2.8.7.2. Assessment of lactogenic potential of the formulations prepared from Pet.ether extract of <i>L.reticulata</i>	73
2.9 Development of software facilitating Quality Assessment of Herbal Raw Materials	
3.0 Results and Discussion	74
3.1 Morphological and microscopical evaluation	

of Plants	74
3.2 Phytochemical studies	78
3.3 Development of standardization parameters for different Plant drugs	91
3.4 Stability studies	123
3.5 Evaluation of different marketed samples of <i>L.reticulata</i>	126
3.6 Evaluation of <i>Ayurvedic</i> formulation- <i>Jivantyadi Ghrita</i> and comparison of various market samples	130
3.7 Biological assessment of different extracts from the selected plants.	136
3.7.1 <i>In vitro</i> antioxidant activity	136
3.7.2 Toxicity Studies	143
3.7.3 Assessment of Hepatoprotective activity of plant extract <i>in vivo</i> and <i>in vitro</i> .	144
3.7.4 Assessment of comparative adaptogenic potential shown by Methanolic extracts in swim endurance test	149
3.7.5 Assessment of lactogenic potential of extracts of the selected Plants	154
3.7.5.1 Assessment of lactogenic potential of extracts of <i>D.volubilis</i> and <i>P.microphylla</i> in lactating rats and comparison with extracts of <i>L.reticulata</i>	154
3.7.5.2 Assessment of lactogenic potential of the formulations prepared from Pet.ether extract of <i>L.reticulata</i>	166
3.8 Implementation of Developed Software in assessment and retrieving of the Data related to Standardization of Plants	169
4.0 Summary	172
5.0 References	187
