

List of Figures

| Fig. No | Description | Page No. |
|---------|---|----------|
| 1.1 | Aerial parts of <i>Leptadenia reticulata</i> | 17 |
| 1.2 | Aerial parts of <i>Dregea volubilis</i> | 19 |
| 1.3 | Aerial parts of <i>Pentatropis microphylla</i> | 21 |
| 3.1 | Photomicrograph of microscopic studies of <i>L.reticulata</i> aerial parts | 75 |
| 3.2 | Photomicrograph of microscopic studies of <i>D.volubilis</i> aerial parts | 76 |
| 3.3 | Photomicrograph of microscopic studies of <i>P.microphylla</i> aerial parts | 76 |
| 3.4 | Chromatogram of triterpenoidal and steroidal compounds in Pet Ether extract of aerial parts of the Plants | 84 |
| 3.5 | Comparative UV spectra of the peaks represents the spots on the same R_f values | 85 |
| 3.6 | Chromatogram of triterpenoidal and steroidal compounds in Chloroform extract of Plants | 86 |
| 3.7 | Comparative UV spectra of the peaks represents the spots on the same R_f values | 87 |
| 3.8 | Chromatogram of Flavonoidal Compounds in Ethyl Acetate extract of the selected plants | 88 |
| 3.9 | Chromatogram of Flavonoidal Compounds in Methanol extract of the selected plants | 89 |
| 3.10 | Comparative UV spectra of the peaks represents the spots on the same R_f values | 90 |
| 3.11 | Chromatographic Fingerprint of methanolic extract to differentiate aerial parts and root of <i>L.reticulata</i> from each other | 97 |
| 3.12 | Chromatographic Fingerprint of methanolic extract to differentiate aerial parts and roots of <i>D.volubilis</i> from each other | 98 |
| 3.13 | Chromatographic Fingerprint of methanolic extract to differentiate aerial parts and roots of <i>P.microphylla</i> from each other | 99 |
| 3.14 | Overlapping spectra of salicylic acid and Stigmasterol with the corresponding spot in track of standard | 102 |
| 3.15 | Detection and Estimation of Salicylic acid | 103 |

| | | |
|------|--|-----|
| 3.16 | Detection and Estimation of Salicylic acid | 103 |
| 3.17 | Detection and Estimation of Stigmasterol | 103 |
| 3.18 | Peak of Salicylic acid and Stigmasterol | 108 |
| 3.19 | Detection and Estimation of β carotene | 116 |
| 3.20 | Peak of β carotene in track of sample and standard | 116 |
| 3.21 | Chromatogram of positive control and market samples | 128 |
| (a) | | |
| 3.21 | Chromatogram of positive control and market samples | 129 |
| (b) | | |
| 3.22 | Photomicrograph of Rat liver after treatment with toxicant and test extract | 147 |
| 3.23 | Photomicrograph of Histology of Mammary Glands | 159 |
| 3.24 | Photomicrograph of Histology of Mammary Glands | 160 |
| 3.25 | Photomicrograph of Histology of Mammary Glands | 161 |
| 3.26 | Chromatogram of the content permeated from the extract through intestine <i>in vitro</i> | 166 |
| 3.27 | Photomicrograph of Histology of Mammary Glands | 168 |
| 3.28 | Screen Shots of Software | 170 |
| 3.39 | Screen Shots of Software | 171 |
