Executive Summary iv)

List of Tables xiii)

List of Graphs xviii)

List of Maps xxi)

List of Figures xxiv)

List of Plates xxv)

Abbreviations xxvi)

Chapter	Title	Page
1.0	Introduction	1
1.1	National Water Resources	1
1.2	Water Resources of Gujarat	4
1.2.1	Water Resources Potential and Development	8
1.3	Water Resources of Saurashtra	10
1.3.1	Surface Water	10
1.3.2	Groundwater Potential and Development	10
1.4	Seawater Intrusion	11
1.4.1	Causes of Seawater Intrusion	12
1.4.2	Factors Affecting Coastal Aquifers	13
1.4.3	Concept of Fresh – Saline Interface	14
1.4.4	Prevention and Control of Seawater Intrusion	16
1.5	Objective of the Present Study	20
2.0	Review of Literature	22
2.1	Identification of Seawater Intrusion	22
2.2	Monitoring of Seawater Intrusion	23
2.3	Scenario of World Seawater Intrusion Control Scheme	25
2.4	Scenario of World – Seawater Intrusion Field Studies	27
2.5	Control of Seawater intrusion in the World	29

Chapter	Title	Page
2.5.1	Studies in U. S. A.	29
2.5.2	Study of Injection Barrier to Prevent Seawater Intrusion in South California	31
2.5.3	Study of Injection Barrier to Prevent Seawater Intrusion in Los Angeles	32
2.5.4	Seawater Intrusion in the Biscayne Aquifer, Florida	35
2.6	Seawater Intrusion in Saurashtra, Gujarat	37
2.6.1	Solution of the Problem suggested by GoG	37
2.6.2	Management Techniques	37
2.6.3	Recharge Techniques	39
2.6.4	Salinity Control Techniques	41
2.7	Usefulness of Models in solving Problems of Seawater Intrusion	42
2.7.1	Physical Models	43
2.7.2	SUTRA Model	45
2.7.3	MOCENSE	46
2.8	Karstic Aquifers	47
2.8.1	Seawater Intrusion in Karstic Coastal Aquifers	48
2.8.2	Model Concepts in Karstic Aquifers	48
2.9	Summary	49
2.10	Methodology Adopted	49
2.11	Parameters to be Developed	49
<b>3.0</b>	<b>Details of Study Area – The Coastal Saurashtra</b>	<b>50</b>
3.1	General Details of the Saurashtra Region	50
3.1.1	Physiography	50
3.1.2	Geology of the Saurashtra region	50
3.1.3	Hydrogeology of Saurashtra Region	52
3.2	General Details of Coastal Belt of Saurashtra	52
3.2.1	Coastline of Saurashtra	53
3.2.2	Geology of the Coastal Region	54
3.3	Bhavnagar to Una Reach	55
3.3.1	Location	55
3.3.2	Physiography and Geomorphology	55
3.3.3	Drainage	55
3.3.4	Rainfall	55
3.3.5	Geology	56
3.4	Una to Madhavpur Reach	57

Chapter	Title	Page
3.4.1	Location	57
3.4.2	Physiography and Geomorphology	57
3.4.3	Drainage	57
3.4.4	Rainfall	58
3.4.5	Geology	58
3.5	Madhavpur to Malia Reach	58
3.5.1	Location	58
3.5.2	Geomorphology and Drainage	59
3.5.3	Rainfall	60
3.5.5	Geology	60
<b>4.0</b>	<b>Data Collection</b>	<b>67</b>
4.1	Saurashtra Coast at a Glance	67
4.1.1	Seawater Intrusion Preventive Structures Constructed upto 2003	68
4.1.2	Salient Features of Various Seawater Intrusion Preventive Structures	71
4.1.3	Statement Showing Taluka-wise Variation in Area Affected by Seawater Intrusion and Freshwater Area	77
4.2	Medha Creek Tidal Regulator	79
4.2.1	Salient Features of Medha Creek TR	79
4.2.2	Rainfall Recorded at Medha Creek TR Hydromet Station	80
4.2.3	Geology of the Area	81
4.2.4	Elevation, Area, Volume Stored (Capacity) and Wetted Area of Medha Creek TR Reservoir	84
4.2.5	Pumping & Recuperation Test at village Ambarama	85
4.2.6	Rainfall, Water Level Fluctuation & Evaporation Recorded at Medha Creek TR	86
4.2.7	Geohydrological & Geochemical Monitoring System Setup	87
4.3	Meghal Tidal Regulator	91
4.3.1	Meghal Basin - Topography	91
4.3.2	Salient Features of Meghal TR	93
4.3.3	Rainfall Recorded at Meghal TR Hydromet Station	93
4.3.4	Geology of the Area	94
4.3.5	Elevation, Area, Volume Stored (Capacity) and Wetted Area of Meghal TR Reservoir	97
4.3.6	Pumping & Recuperation Test at village Visanvel	98
4.3.7	Rainfall, Water Level Fluctuation & Evaporation Recorded at Meghal TR	99

Chapter	Title	Page
4.3.8	Geohydrological & Geochemical Monitoring System Setup	100
4.4	Mul Dwarka Tidal Regulator	104
4.4.1	Salient Features of Mul Dwarka TR	104
4.4.2	Rainfall Recorded at Meghal TR Hydromet Station	105
4.4.3	Geology of the Area	105
4.4.4	Elevation, Area, Volume Stored (Capacity) and Wetted Area of Mul Dwarka TR Reservoir	109
4.4.5	Pumping & Recuperation Test at village Math	110
4.4.6	Rainfall, Water Level Fluctuation & Evaporation Recorded at Mul Dwarka TR	111
4.4.7	Geohydrological & Geochemical Monitoring System Setup	112
4.5	Barda Bandhara	116
4.5.1	Topography	116
4.5.2	Salient Features of Barda Bandhara	116
4.5.3	Rainfall	116
4.5.4	Geology of the Area	116
4.5.5	Elevation, Area, Volume Stored (Capacity) and Wetted Area of Barda Reservoir	120
4.5.6	Pumping Test at village Math	121
4.5.7	Rainfall, Water Level Fluctuation & Evaporation Recorded at Barda Bandhara	121
4.5.8	Geohydrological & Geochemical Monitoring System Setup	122
4.6	Shardagram Bandhara	124
4.6.1	Salient Features of Shardagram Bandhara	124
4.6.2	Rainfall Recorded at Sheriaj Hydromet Station	125
4.6.3	Geology of the Area	126
4.6.4	Elevation, Area, Volume Stored (Capacity) and Wetted Area of Shardagram Bandhara Reservoir	129
4.6.5	Pumping Test at village Langodra	130
4.6.6	Rainfall, Water Level Fluctuation & Evaporation Recorded at Shardagram Bandhara	130
4.6.7	Geohydrological & Geochemical Monitoring System Setup	132
4.7	Change in Crop Production	134
4.8	Mining of Limestone in the Coastal Belt	135
<b>5.0</b>	<b>Analysis of Seawater Intrusion Preventive Structures</b>	<b>136</b>
5.1	Analysis of Rainfall & Taluka-wise Affected Area	136
5.1.1	Bhavnagar – Una Coast	137

Chapter	Title	Page
5.1.2	Una – Madhavpur Coast	140
5.1.3	Madhavpur - Maliya Coast	140
5.1.4	Taluka-wise Area Affected by Seawater Ingress, Fresh water & Rainfall	143
5.2	Analysis of Medha Creek TR	145
5.2.1	Analysis of Rainfall in Medha Creek TR area	145
5.2.2	Graphs Showing between Elevation, Area and Cumulative Volume Stored for Medha Creek TR	146
5.2.3	Analysis of Pumping Test at Village Ambarama	147
5.2.4	Calculation of Recharge Rate, Volume of water Stored & Volume Water Recharged for Medha Creek TR	151
5.2.5	Geohydrological & Geochemical Analysis for Medha Creek TR	157
5.2.6	Interpretation of Geohydrological & Geochemical Maps for Medha Creek TR	174
5.3	Analysis of Meghal TR	176
5.3.1	Analysis of Rainfall in Meghal TR Area	176
5.3.2	Graphs Showing between Elevation, Area and Cumulative Volume Stored for Meghal TR	176
5.3.3	Analysis of Pumping Test at Village Visanvel	177
5.3.4	Calculation of Recharge Rate, Volume of water Stored & Volume Water Recharged for Meghal TR	182
5.3.5	Geohydrological & Geochemical Analysis for Meghal TR	188
5.3.6	Interpretation of Geohydrological & Geochemical Maps for Meghal TR	209
5.4	Analysis of Mul Dwarka TR	210
5.4.1	Analysis of Rainfall in Mul Dwarka TR area	210
5.4.2	Graphs Showing between Elevation, Area and Cumulative Volume Stored for Mul Dwarka TR	211
5.4.3	Analysis of Pumping Test at Village Math	212
5.4.4	Calculation of Recharge Rate, Volume of water Stored & Volume Water Recharged for Mul Dwarka TR	217
5.4.5	Geohydrological & Geochemical Analysis of Data Collected for Mul Dwarka TR	224
5.4.6	Interpretation of Geohydrological & Geochemical Maps for Mul Dwarka TR	242
5.5	Analysis of Barda Bandhara	243
5.5.1	Graphs Showing between Elevation, Area and Cumulative Volume Stored for Barda Bandhara	243
5.5.2	Calculation of Recharge Rate, Volume of water Stored & Volume Water Recharged for Barda Bandhara	245

Chapter	Title	Page
5.5.3	Geohydrological & Geochemical Analysis of Data Collected for Barda Bandhara	251
5.5.4	Interpretation of Geohydrological & Geochemical Maps for Barda Bandhara	267
5.6	Analysis of Shardagram Bandhara	268
5.6.1	Analysis of Rainfall in Shardagram Bandhara Area	268
5.6.2	Graphs Showing between Elevation, Area and Cumulative Volume Stored for Shardagram Bandhara	268
5.6.3	Analysis of Pumping Test at Village Langodra	270
5.6.4	Calculation of Recharge Rate, Volume of water Stored & Volume Water Recharged for Shardagram Bandhara	270
5.4.5	Geohydrological & Geochemical Analysis of Data Collected for Shardagram Bandhara	279
5.6.6	Interpretation of Geohydrological & Geochemical Maps for Shardagram Bandhara	288
5.7	Interpretation of Geochemical Data with Graphs	289
5.8	Effect on Crop Production	293
<b>6.0</b>	<b>Results and Conclusions</b>	
6.1	Results	295
6.1.1	Pumping Test	295
6.1.2	Recharge Rate for Seawater Intrusion Preventive Structures	295
6.1.3	Recharge Rate Equation from Log-Log Graph	297
6.1.4	Volume of Water Stored and Recharged, % Recharge Efficiency	298
6.1.5	Zone of Transition	299
6.1.6	Impact of Seawater Intrusion Preventive Structures	300
6.2	Conclusions	302
6.3	Recommendations	304
