

ACKNOWLEDGEMENTS

I express my sincere gratitude to **Dr. K.V.R. Murthy**, Reader, Applied Physics Department, who inspired, encouraged and guided me to carry out this work. Being with him for all these years made me learn many things, especially his administrative capabilities are unparalleled. I hope to continue my association with him in years to come.

I am thankful to Prof. T.R. Joshi, Dr. A.J. Shah and Prof. V. N. Potbhare, Former Heads, Applied Physics Department, for their kind co-operation.

I am thankful to Dr. Arun Pratap, Head, Applied Physics Department, for allowing me to carry my research in the department and for his cooperation.

I sincerely acknowledge the help rendered by Dr. V. Natarajan, Dr. S.V. Gobole (Head, Spectroscopy Section, BARC), Dr. A.J. Dhoble (RCD, BARC) for helping me in using the lifetime facility, PL and doing the literature survey at BARC. I also thank Dr. S.S. Sanaye and Mr. B. Dhabekar (RPAD, BARC) for their help in doing the Gamma irradiated TL study.

I also thank Dr. R. Jagannathan, Senior Scientist, CERI, Karaikudi, for giving me the suggestions regarding the type of work I was doing and also solving my problems, I always banked on him and his kind words and good scientific advices allowed me to carry my research forward.

I sincerely thank Dr. R.P. Rao, Director, Intermatrix, R & D, USA who helped me, during my initial days into the research, by providing me with his patents and also commenting on my queries.

From the bottom of my heart I sincerely appreciate and thank Dr A.G. Page, Former Head, Spectroscopy Section, RCD, BARC, for providing me the necessary guidance and advices for my work to move in right direction.

I also thank Dr. A.K. Tyagi, Head, Chemistry Division, BARC, for providing me XRD facility. Thanks are also due to Dr N.S.S. Murthy, Metallurgy Department, The M.S. University of Baroda, for the XRD facility. I also thank Dr. K.V. Rao, IPCL, Vadodara, for providing me with few XRD of my samples.

I sincerely thank Dr. Sanat, IIP, Dehradun, for carrying XRD measurements, and helping me in knowing how to analyze the data from the technique, for many samples some of which could not make it through.

Thanks are due to the teachers of Applied Physics Department, especially Dr. Y.H. Gandhi for his friendly advices and suggestions.

I thank all my research colleagues at the Display Materials Laboratory Dr. M. Parmar, Beijing Jiatong University, China, Dr. Sai Prasad, Hyderabad and Mr. Y.S. Patel for providing friendly atmosphere necessary to carry out this work.

Words cannot express my feelings to my friend, colleague and now SRF at BARC, Ms. Pallavi Page, and her family, for all that she has done for me. The kind words, advices, suggestions and the scientific deliberations on luminescence and non luminescence topics with her were indeed enlightening.

I also thank for the unending help I received from my two friends, one Dr. Pooja Sharma, Scientist, RRL, Jorhat, and the other Dr. Yogesh Kale, Cosmo Films Ltd., who were with me whenever I was in need and with whom I have spend a lot of good times.

I would like to thank many of my friends, many names would be omitted due to space problem, with whom I had a wonderful interaction and shared my dreams and aspirations, I wish all of them luck. Indrajit, Pravin, Santosh, Romesh, Manoj Sundriyal, Vipul, Sunil, Tushar, Vinod, Rajesh, Hemanta, Rohit, Shajil, Vikas, Dr. Vikas, Sudip, Sushil, Sachin, Angshuman, Manish and many more, I wish to continue the bonding with all of them for lifetime.

I also thank The M.S. University of Baroda for providing me the University Research Scholarship for carrying out this work.

Lastly I thank the non-teaching staff of Applied Physics Department for their kind co-operation. I thank all those who has made me to pass a tough time and made me to submit the thesis.

I owe my success to Ghildiyal and Nauriyal family without whose inspiration, encouragement and help the work could not be completed.

Last but not the least I thank my parents, my Sister and my Brother in Law, without whose support, love, affection and encouragement I could not have made it through.

Rahul Ghildiyal
