

ANNEXURES

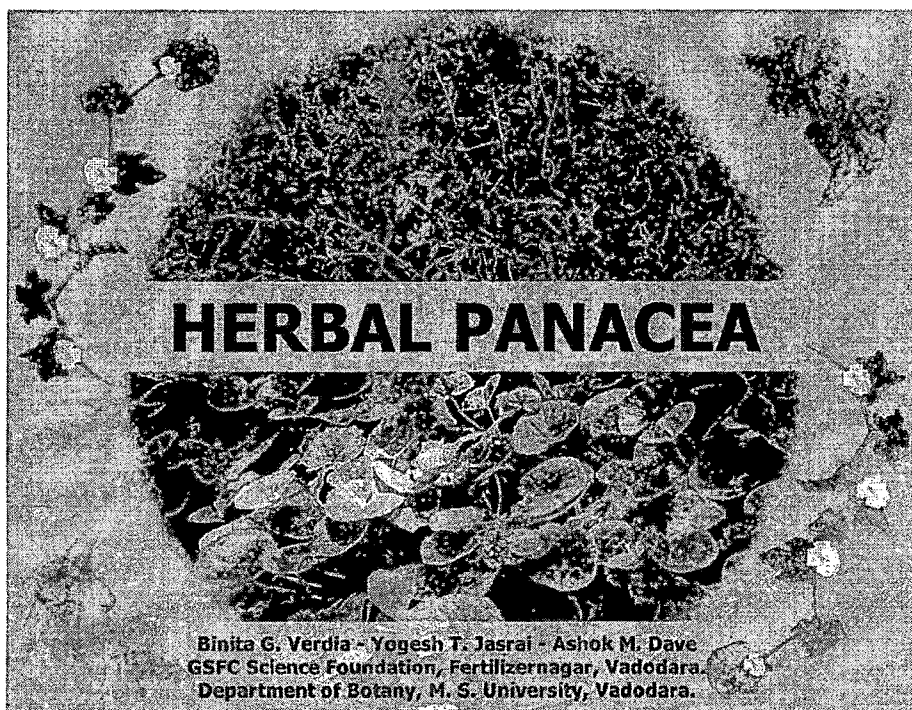

Annexure: 1

Developed a CD:

A Compact Disc (CD) entitled **Herbal Panacea**, which is based on important medicinal plants of Gujarat State was developed. Its primary objective was to create awareness and assist the public in identification of plants. It comprises the complete details of 100 medicinal plants. Plants are classified into four major sections: Herbs, Shrubs, Climbers and Trees for the ease to access to public.

Each plant comprises data:

A digital large colored photograph, Botanical name, Gujarati, Hindi, Sanskrit, English name, location of the plant in whole India, part used, active principle present in the plant, propagation method, medicinal value and most important the identification characters. CD also has the glossary section for difficult diseases and terminology.

The CD was realized by Hon' Vice Chancellor **Dr. K. C. Upadhy**a, the Maharaja Sayajirao University of Baroda on 10th of January 2004. CD was kept for sale in the seminar organized by the Botany Department of the M. S. University of Baroda and excellent response was observed. Presentation of CD was also done in seminars based on medicinal plants. It was highly appreciated by the ayurvedic doctors and students as they were in need of such type of data.

The CD was presented and displayed at Tribal research institute (TRI), Udaipur, Rajasthan in the two day seminar on **Medicinal Plants Production and Marketing**.
