

LIST OF FIGURES

1.	Location	3
2.	Regional geologic and morphologic set up	8
3.	Rainfall and river discharge	21
4.	Geology	36
5.	Schematic structural set-up - Kosi basin	37
6.	Drainage	47
7.	Longitudinal profile of Kosi river	49
8.	Sub-basin A - Drainage and divides	73
9.	" - Drainage from aerial-photos and inferred geology	75
10.	" - Longitudinal river profile	77
11.	" - Cross profiles	78
12.	" - Relation of number of channels, average length and drainage area to channel order	81
13.	" - Slopes	83
14.	Sub-basin B - Sual river - Drainage and divides	85
15.	" - Drainage from aerial photos and inferred geology	86
16.	" - Longitudinal profile	88
17.	" - Superimposed cross-profiles	90
18.	" - Relation of number of channels, average lengths and drainage area to channel order	92
19.	" - Slopes	93

20.	Sub-basin C	- Kuch gad Drainage and divides	96
21.	"	- Drainage from aerial photos and inferred geology	97
22.	"	- Longitudinal profile	99
23.	"	- Superimposed cross profiles	100
24.	"	- Relation of number of channels, average lengths and drainage area to channel order	102
25.	"	- Slopes	104
26.	Sub-basin D	- Drainage and divides	106
27.	"	- Drainage from aerial photos and inferred geology	107
28.	"	- Longitudinal profiles	109
29.	"	- Cross profiles	110
30	"	- Relation of number of channels average lengths and drainage area to channel order	111
31.	"	- Slopes	113
