

List of Tables

	Page No	
Table 1.1.1	Categorizations of electromagnetic phenomena	3
Table 2.4.1	Design details for the Band Pass filter	23
Table 2.4.2	Co-efficient of the Band Pass filters	27
Table 2.4.3	Design details of FIR filters	28
Table 2.4.4	Coefficients of Low Pass filters	31
Table 2.4.5	Coefficients of the All Pass Filter	34
Table 2.7.1	Comparison under sinusoidal conditions	47
Table 2.7.2	Table Results of Frequency Measured	49
Table 2.7.3	Harmonic Conditions at 25% of Voltage	51
Table 2.7.4	Harmonic Conditions at 25% of Voltage	53
Table 2.7.5	Freq Measurement under sub-harmonic Conditions	55
Table 3.10.1.1	Results under Sinusoidal conditions	98
Table 3.10.1.2	Results under Sinusoidal unbalance conditions	99
Table 3.10.1.3	Results under Sinusoidal unbalance conditions	100
Table 3.10.1.4	Simulation Results of four quadrant power	104
Table 3.10.1.5	Results of power measurement at resistive load	109
Table 3.10.1.6	Results of power measurement at inductive load	113
Table 3.10.1.7	Results of power measurement at capacitive load	115
Table 3.10.1.8	Results of power measurement at non-linear load	118
Table 3.14.1	Actual results of power measurement at resistive load	124
Table 3.14.2	Details of the Induction Motor	125
Table 3.14.3	Actual results of power measurement at inductive load	126
Table 3.14.4	Actual results of power measurement in harmonics	127
Table 4.2.1.1	Result for different FFT window	136
Table 4.5.1	Simulation results	172
Table 5.1.1.1	British Method Acceptable Limits	172
Table 5.1.2.2	French Method Acceptable Limits	173
Table 5.3.1	Results of the Harmonics and Inter-harmonics	190
Table 5.3.2	Actual Flicker Results	192
Table 6.1.1	Unipolar straight Binary coding scheme	207
