

List of Tables:

Table 1: Towns identified for coverage under the X Plan.....	5
Table 2: Satellite data used in the study.....	43
Table 3: GCPs of Vadodara city.....	45
Table 4: Urban Land use/ Land cover classification at different levels and their codes according to NNRMS standards.....	49
Table 5: Various Suitability models with their preferred parameters.....	58
Table 6: Ranks given to different categories.....	59
Table 7: Different roads of Vadodara city.....	64
Table 8: List of the gardens present in the city.....	70
Table 9: Important Green belt Areas of City.....	74
Table 10: Population statistics of Vadodara city.....	79
Table 11: Land use classification of VUDA area.....	86
Table 12: Percent change in different land use classes of VUDA area.....	86
Table 13: Land use classification of VMSS area.....	91
Table 14: Percent change in different land use classes of VMSS area.....	91
Table 15: Entropy values of different years.....	99
Table 16: U.S.I. of the study area.....	101
Table 17: L.C.R. of the study area.....	101
Table 18: Ward wise change in high, medium, low and total vegetation.....	106
Table 19: Status of various suitability factors in different wards.....	111
Table 20: Comparison between vegetation and Property price.....	112
Table 21: Correlation Matrix.....	114
Table 22: The percentage of variances and principal Components loading matrix	115
Table 23: Component Matrix.....	115
Table 24: Area covered by different classes of suitability in City ward.....	118
Table 25: APTI values of different plants in City Ward.....	119
Table 26: Area covered by different classes of suitability in Shiyabaug ward.....	124
Table 27: APTI values of different plants in Shiyabaug Ward.....	125
Table 28: Area covered by different classes of suitability in Panigate ward.....	129
Table 29: APTI values of different plants in Panigate Ward.....	130
