

ACKNOWLEDGEMENTS

I express my gratitude to everybody who contributed to this work over the last five years.

Professor Bonny Pilo, Head Zoology Department, M. S. University of Baroda was kind enough to accept me as his student and thank him for all the support I received from him. The Gujarat Forest Department gave the necessary permissions for me to conduct my field studies in the Wild Ass Sanctuary and extended support right through my study.

Wildlife Institute of India funded the entire study and extended all support to me during my fieldwork as well as during data analysis and writing up.

Dr. S.P. Goyal was the Principal investigator of the project. He was the man who kept encouraging me with his statement "Hard work pays" which was a stimulant. I learnt a lot while working with him and I thank him for all the guidance and support.

Shri. H.S. Panwar, Director, Wildlife Institute of India, was a strong supporter of this study, he played a vital role during the initial phase of wild ass tranquillization.

From M.S. University of Baroda, I thank my colleague Dr. Chandrakant Patel from the Dept. of Geology for providing literature on the Rann, Dr. Jayesh Patel and other friends from Dept. of Botany for identifying the herbarium and help in preservation of the same. I thank all my friends and colleagues from the Department of Zoology for rendering support in the completion of my thesis.

This study would not have been possible without the help of my sincere field assistants To Souji Amarsingh, Devji, Jayanti Degama (from Narali) and Chagan Chatoor (from Kankavati). My driver Dharamsingh Rabari (Dhrangadhra) who gave me

the first lessons in automobile mechanics for which I am thankful. All of them made the tedium of field work less difficult. This was the family on the run in Little Rann for three years. In the last lap of my field work Driver Kanjikaka and another assistant Jyotsanaben were of great help.

My sincere thanks to the Maharaja of Dhrangadhra H.H Meghrajsinhji Jhala and the public of Dhrangadhra for being so cooperative and friendly during my stay there. I thank Mr. N.R. Shah and his family (in Phoolgali) for having given his house on rent during the study. My special thanks to the Railway staff of Dhrangadhra esp. To Mr. Tiwari and his family, Post Office staff. To Hiren Belani and his parents, Jasvantsinhji Library, Ajithsinh High School and its Library staff and Maj. K.K. Seth.

Four students K.K Jadeja, Deepak, Bhavesh and Pragnesh from the Dhrangadhra college were of great help to me many a times during the nocturnal study of activity patterns of the collared mares. I am thankful to Mr. Bhat (RFO, Surendranagar) for his help.

Would like to thank Shri Tripathi for having provided the rainfall and temperature data from the Bromine Plant situated in Nimaknagar in the Rann.

I thank all the 200 villages of southern, eastern, and northern fringes of Little Rann for having provided the necessary information during the village surveys.

In the eastern fringe, I thank Sangramsinh and his family at Taranagar and thank the pujari of Wasraj Bet who allowed me and my team to camp in the temple premises during my surveys and vegetation studies.

In Kordha, I would like to thank all the village folks and Kanta Degama who has considered me as her sister. My sincere thanks to Khan Chacha and his warm family in Amrapur for taking care of me and allowing me to be a part of their family during my surveys to the Bets. They were the ones who had come to my rescue at one

occasion when my one man camel safari was lost in the desert and were without water for over 24 hours. I thank Dhanraj and Shabbir Mallick of Dasada, and also Surfaraz Mallick of Zainabad, for being helpful to me in many ways. I thank Shri Gopalsinhji of Patadi for allowing me to see their library and also helping me in many ways.

Bitapi Sinha was with me for two years in the field carrying out work on the Socio-economic dimension of the study. I thank her for all the good times that we had together in the field. I thank Dr. S.P Sinha for gifting to me the first slide film on the wild ass shot by him in 1989.

I would like to thank Dr. Jan Smieloski for sharing some of his experiences about the wild ass behaviour, during my first visit to the Rann in 1989. In February, 1992 he had visited me at the Wildlife Institute of India, and again his inputs on the southern fringe population counts were valuable to me.

I thank, Prof.B.L Penzhorn (University of Pretoria, S.Africa), Ms. Jane Thornback (WCMU,U.K.), Prof. Oliver Ryder (San Diego , U.S.A), I thank Prof. Hans Klingel for sending literature on the equids. My sincere thanks to Christopher Tourenq who is working on the *Equus hemionus luteus* in Mongolia who sent to me the required literature when wanted most urgently.

Joanna van Gruissen for accompanying me in the Rann and I thank her for gifting me some wild ass slides. Helmut and Gertrud Denzau sent some print photographs of wild ass and also gave me company and were encouraging me through their warm letters. I thank them for sending me literature on the wild ass. I thank Helmut and Gertrud for teaching me more about star gazing in the Rann.

My sincere thanks to Mr. R.B. Zala Wild ass sanctuary superintendent, for having oriented me so well in the Rann. He and his family were a great source of inspiration, every time I returned from my sorties in the desert.

I also thank Mr. P. Majithia and his family for taking care of me during his tenure as the sanctuary superintendent. I would like to thank all the personnel of the Sanctuary for the help rendered during my tenure. I thank all the Principal Chief Conservator of Forests Baroda, the Chief Conservator of Forests, Conservators of Forest (Junagadh Circle) for being cooperative and flexible whenever the need did arise.

I thank Shri P.P.Raval, Director Sakkar Baugh Zoo Junagadh and also Dr. Sabbapara both were a part of the tranquillizing team. The information of the status of the wild ass in captivity when required most urgently, was sent. I thank the Forest Department for giving me an opportunity to be a part of the census team during the Wild Ass Census in 1991.

I thank Dr. Ajith Kumar (SACON) for his special attention, support, valuable comments, statistical inputs and critically commenting in the making of this thesis. Dr. S.N. Prasad (SACON) and Dr. G.S. Rawat (WII) for commenting upon the Vegetation Chapter. I am very grateful to Prof. A.H. Musavi for encouraging me during my field study. I thank Dr. A.R. Rahmani for the literature and also for his comments on some of my chapters.

At Wildlife Institute I am grateful to Mr. Qamar Qureshi for all the statistical analysis and the technical inputs which were very crucial. I thank him also for critically commenting on all the chapters. I thank Mr. B.C.Choudhry and Dr. Y.B. Jhala for scrutinizing some of the chapters. I must thank Ravi Chellam, in whose absence at the office was able to use his working space very conveniently, and also for commenting on some aspects of this thesis. My sincere thanks to Dr. A.J.T.Johnsingh for all his support and encouragement. The most understanding and a friendly person.

I sincerely thank Bhupathy, Justus, Wesley, Ajay Desai (BNHS), Dr.A.M. Dixit, Apparajita, Charu, Shomita, Anand, all commented critically and provided good inputs

for some of the chapters. A special thanks to Nima and Dixitji for having given their precious time in editing and making of new drawings. Suhel helped me with bibliography and in many other aspects, Kavita checked all the scientific names of the vegetation chapter. I thank Shravan, Madhu, Advait Sathyakumar and Raghu Chundavat for their help.

My sincere thanks to Shomita, Azra, Nima, Prachi, Appu and Rajeshwari for helping me to fight some of the most depressing moments during the writing phase. My thanks to all the wildlife researchers at the Institute for supporting me.

My sincere thanks to Ranaji, Vermaji, Mrs. Joshi, Sunita, Soaibji, Virendra and the other staff members for all the help rendered in the library. Must thank Thapaji, Lekhnath, Navneet for helping me out with the computers. Special thanks to Sukumar for spending time finalizing my work for the final print job. My thanks to Mahesh and Ismail for having sacrificed their holiday for photocopying. Thanks to all the staff personnel of the Wildlife Institute of India, Dehra Dun for helping me in all ways.

A special thanks to Dr. G.M. Oza General Secretary, INSONA and his family for all the encouragement. Dr. Oza directed me in the right direction way back in 1983.

My sincere thanks to Qamar for all the support and encouragement that he has been giving to me in all these five years especially during the writing phase. I thank him for teaching me Statistics in a much simpler way.

My thanks to my grandfather my maternal and paternal relatives who were a source of encouragement. Many thanks to my cousins Sejal, Shefali, Sachin, Mansi, Jankhana, Mita, Mona, Sandeep, Bingo and Sheetal- who also visited me in the Rann.

Finally I thank my parents who taught me to love and respect Nature, my brother Pinakin and his wife Rekhaji for all the moral support and encouragement and

keeping faith in me. They were all my liaison officers. I thank my father for visiting me in the Rann and also helped me in radio-tracking my mares. I also thank them for tolerating my unconventional ways of life. My mother has been a very strong supporter to my work and has been my best friend all the while. They have been a great source of energy during some of the most difficult times of my field study.

I must thank my pet "kudu" spiny tailed lizard who dared the journey through the Rann and to many parts of the country in her mobile burrow.

A handwritten signature in black ink, appearing to read 'Nita V. Shah', written in a cursive style with a long horizontal stroke extending to the right.

NITA V. SHAH
