

## *Acknowledgement*

*It all started with an experiment and I am sure it will ever continue to be an endless process of experimentation. The research for this thesis was carried out at the Department of Biochemistry, Faculty of Science, The Maharaja Sayajirao university of Baroda. Foremost I would like to thank almighty for creating insight to pursue for Ph.D. degree. Many people have supported me directly or indirectly and I would like to thank all of them for their kind support.*

*First of all I would like to thank my teacher, mentor, guru and Ph.D. supervisor Professor Rasheedunnisa Begum for directing me the path towards science. Madam has provided an excellent opportunity to work in her laboratory, her scientific guidance, critical and lively discussion and for the constant motivation and support throughout all these years, it was a great time. Without her back up encouragement, it would have been impossible to complete my Ph.D. Madam has motivated and supported numerous students at master's levels and I am one of them. Her small push at my M. Sc. entrance interview has resulted in the form of Ph.D. thesis. Thank you for endless teachings and blessings madam.*

*I am grateful to Prof. Sarita Gupta (Head) and Prof. G. Naresh kumar (Ex-Head) for their expert guidance, critical suggestions and for providing instrumentation facility. I am also grateful to my committee member Prof. Yogesh S Marfatia and Dr. Laxmipriya Nampoothiri for their critical comments and suggestions, which made my work more refined.*

*I appreciate and thank the teaching staff, Prof C. Ratnaprabha, Prof. Pushpa Robin, Dr. Rajesh Singh, Dr. Acharya, Dr. Jayshree Pohnerkar, Dr. Devesh Suthar, Dr. Ravi Vijayvargia and Dr. Sanjeev Upadhyay for their suggestions and guidance, mainly during annual presentations. Most of my work revolved around human clinical samples and certainly it would had not been possible to finish the same without the help of our clinical collaborators Dr. Atul Shah, Dr. Jayesh Rajpura, Prof. Beja J Shah, Prof.*

*Y.S. Marfatia, Dr. Ankit Bharti, Dr. Arti Shah, Dr. Richa Gupta and many more for helping me for human skin and blood samples collection. I would like to offer my special thanks to all clinical collaborators. Additionally, I would like to thank DBT MSUB ILSPARE for providing Instrumental facility.*

*I express my gratitude to AVR Sir, Ansar Sir from Zoology Dept. for their all time support, advice and expert suggestions. I would like to thank Dr. Rajesh S. Gokhale, Dr. Garima Mallik, Dr. Vivek Natarajan and their whole team member for providing me a good working atmosphere for learning basis of melanocyte isolation and culturing. I would like to acknowledge Prof. Girish Shah for providing antibodies, PARP inhibitor and lively discussions.*

*I acknowledge the administrative staff, Pethe Sir, Vyas bhai, Akshita Ma'm, Shailesh bhai, Manish bhai, Ramesh bhai, Vijay bhai, Parmar bhai, and Kamble bhai for helping me in official work. Special thanks to Bhartiben for minor/major technical help during project work. I am also thankful to Sandeep bhai, Anil bhai and Balwant bhai for keeping the lab clean and a better working place.*

*I received generous support and encouragement from my lab seniors Shoaib sir, Laddha sir, Mitesh sir, Shajil sir, Tina and Hina mam, Jyotika mam. Thank you shoaib sir for constant support and help. I would also like to thank all colleagues from the RBL members Ashlesha, Shah Nawaz, Roma, Nirali, Sayantani, and Chandani for their kind help, support and also for the critical discussions of results in the lab meetings. I am particularly grateful for the assistance given by my dissertation students Anushree, Manali, Apoorva and Nidhi for our work. Also, to other dissertation students Vishal, Shailesh, Ajinkya, Chetan etc. of RBL including present batch students Anurite, Nishant, Darshan and Hemangini. Also, I had enjoyable time with Krati Shah, Kirti Parwani, Imtiyaz, Yusuf, Irshad, Sandeep and Nimisha during my Ph.D. tenure.*

*I would like to Nirali, Harshita, Vidushi, Debolina, Chainika, Pradeep patel, Hinal, Ekta Shahi, Ishani Sahay, Dimple, Ipsa, Richa , Tabassum mam, Jaymesh, Bharavi, Kinjal, Ankit, Sirish and many more made the lab environment more lively during their stay at RBL.*

*I express my appreciation to some of the Research Scholars, my colleagues/seniors/juniors with whom I have travelled my Ph.D journey, attended coursework, went through giving so many presentations and exams together: Hemanta Sir, Chanchal Sir, Kavita, Jitendra, Ruma, Archana, Parini, Riddhi, Ujwal, Maharshi, Akhilesh Sir, Tushar Sir, Abhay, Ragitha, Mitul, Gaurav, Gurpreet, Hemang, Mohsin, Tabassum, Sejal, Kritarth, Milton, Paresh, Radha mam, Arpi, Divya, Krishna di and new joining to department.*

*A special thanks to our Trio group [Ankita and Lakshmi mam (Sripada)] without their constant numerous support starting from my experiments of western blot to thesis compilation covering almost the entire span of my Ph.D. journey. Without their support especially Ankita this journey would not have been so enjoyable.*

*I would also like to thank whole teaching staff of department especially RB mam, Heena and LP mam for enabling me to reach this stage of thesis submission in spite of busy teaching schedule.*

*I need to mention and thank the University Office Staff: Milind bhai, Kenneth bhai, Nair bhai, Vijay bhai and Neeta Ma'am for their friendly and generous help during my Ph.D, though it be any important document. Also, Science Faculty office staff: Kaushik bhai, Damor bhai, Sonawane bhai and Dudhwala bhai for their generous help and support during preparation of SE-UC, bills or the fellowship.*

*I would also like to thank my classmates Gosai, Pranav, Nirja, Pranshu and Kirti for their discussions.*

*I would also like to express my gratitude to ICMR, GUGCOST, APSI and CSIR SRF for providing research funds and fellowship to fulfil my objectives.*

*A special thanks to my sister for waiting, encouraging and helping me through all odd situations. Last but not the least, I would like to thank my family without their daily basis love, care and tolerance Ph.D. would have not been so enjoyable and carefree journey for me.*

***Mala Singh***
