

ACKNOWLEDGEMENT

I wish to take this opportunity to record my deepest sense of regard to my guide Dr.S.Roy, Reader, Centre of Advanced Study in Education, Faculty of Education and Psychology, The M.S. University of Baroda, Baroda, for his encouragement in initiating this extensive survey work and active help, inspite of his busy schedule in seeing the study to its successful completion.

I thank all my colleagues and friends who have extended their help in this study in one way or the other.

Thanks are due to the Kadehude village leaders, educated people, school teachers and children, and all the household heads for their sincere cooperation and help in conducting the study. I will be failing in my duty, if I do not thank the various block development officials, adult education and education department officials of the Challakere taluk, without the cooperation of whom the study would not have been completed successfully.

The CASE Librarian Smt. S.S.Padhye has helped me in various ways. I thank her. I also thank Mrs.Vasanthi Jayaram who has neatly typed out the thesis in minimum time.

Lastly, I owe a great debt to my parents and other members of my family whose constant encouragement in all my academic work has inspired me at every stage of my study.
