

ACKNOWLEDGEMENTS

The data presented here was collected between November 1976 and June 1977. Professor M.B. Buch, at whose suggestion I undertook this study, contributed immensely in orienting me in the frame of sociology of education. He was constantly in touch with the study till the last date of his retirement (October 1978). I find it impossible to express what I owe to him. I am equally grateful to Professor D.S. Desai, who has encouraged me and facilitated me in the preparation of this draft. I have no words to express my gratitude to my guide Dr. B.C. Joshi, who was always ready to discuss about the problem formally as well as informally. It is because of him, that I am able to submit my study. It is a great pleasure to record my warm gratitude to all my faculty colleagues whose comments and advice helped me a lot in preparing this final draft. Special mention has to be made here of my research fellows and teacher fellows, who gave constructive suggestions, when the first draft of the design was presented in the OASZ Seminar.

I must also acknowledge my profound debt to the principals of the schools and colleges, the secondary and college teachers, the SC/ST students and their parents, without whose co-operation I could have achieved nothing.

I would be failing in my duty if I do not mention my other well wishers: my friends and family members, who could bear with me and helped in some of the tidy jobs.

Finally I must express my sincere thanks to Shri J.S. Kelkar, who did the secretarial job neatly and in a short time.
