

LIST OF TABLES

CHAPTER IV

| | |
|------------|--|
| Table 4.1: | Primers for identification of common mutations |
| Table 4.2: | PCR conditions for common mutations |
| Table 4.3: | Restriction Digestion of PCR product |
| Table 4.4: | Primers for DNA sequencing of <i>GBA</i> Gene |
| Table 4.5: | PCR conditions for exons DNA sequencing |

CHAPTER V

| | |
|-------------|--|
| Table 5.1: | Auxological data of GD patients with clinical symptoms |
| Table 5.2: | Plasma chitotriosidase and β -glucosidase activity in patients with GD |
| Table 5.3: | Common mutations screening for GD patients |
| Table 5.4: | List of <i>GBA</i> gene mutations in GD patients |
| Table 5.5: | List of <i>GBA</i> gene mutations in carrier parents |
| Table 5.6: | Novel mutations identified in <i>GBA</i> gene in GD patients |
| Table 5.7: | <i>In silico</i> analysis of novel mutations in <i>GBA</i> gene |
| Table 5.8: | Clinical, Biochemical and Molecular data of Indian GD patients |
| Table 5.9: | Genotype-phenotype correlation in Indian GD patients |
| Table 5.10: | Genotype and phenotype of GD patients on ERT |
