

## CONTENTS

CHAPTER	PAGE
INTRODUCTION	1
MATERIALS AND METHODS	12
I. Effect of Different Photoperiodic Lengths on Tail Regeneration in the Gekkonid lizard, <u>Hemidactylus flaviviridis</u> .	16
II. Extraretinal Photoreception in Lacertilian Tail Regeneration : The Lateral Eyes Are Not Involved in Photoperiodic Photoreception in the Gekkonid Lizard, <u>Hemidactylus flaviviridis</u> .	31
III. Preliminary Evidence For Pineal Mediated Extraretinal Photoreception in Relation to Tail Regeneration in the Gekkonid Lizard, <u>Hemidactylus flaviviridis</u> .	50
IV. Tail Reneration in Normal, Blinded and Pinealectomized Gekkonid Lizard, <u>Hemidactylus flaviviridis</u> Exposed to Four Different Light Conditions under Three Seasons (Temperatures).	74
V. Effect of Photoperiodism, Pinealectomy and Seasonal Variations in Temperature on Tail Regeneration in the Gekkonid Lizard, <u>Hemidactylus flaviviridis</u> .	95

CHAPTER	PAGE
VI. Evidence showing that the Time of Administration of the Indoleamine, Melatonin, Determines its Proregenerative or Antiregenerative Effect in the Gekkonid Lizard, <u>Hemidactylus flaviviridis</u> .	122
VII. Is the Pineal Involved in the Stimulatory Influence of Prolactin on Tail Regeneration in Lizards ? Studies with Exogenous Prolactin in Lizards Exposed to Continuous Darkness.	141
VIII. Parachlorophenylalanine, A Specific Depleter of Brain Serotonin, Retards Tail Regeneration in the Gekkonid Lizard, <u>Hemidactylus flaviviridis</u> .	157
IX. Failure of the Dopamine Agonist, Bromocriptine, to Retard Tail Regeneration in the Gekkonid Lizard, <u>Hemidactylus flaviviridis</u> Exposed to Continuous Light or Continuous Darkness.	172
X. Dopamine Antagonist Stimulates Tail Regeneration in Lizards Exposed to Continuous Darkness : Evidence for Prolactin Involvement.	189

CHAPTER	PAGE
XI. Bromocriptine Retards Tail Regeneration in 12L : 12D but not 24L : CD Exposed Lizards : Evidence for Photoperiodic Control of Prolactin Release Mechanisms in Lizards.	211
XII. Melatonin in Lacertilian Tail Regene- ration : Duration, Phase Specificity and Synchronization of the Daily Light-Dark Cycle.	230
SUMMARY	254
GENERAL CONSIDERATIONS	269
BIBLIOGRAPHY	281
ADDENDUM	336
