

LIST OF TABLES

3.1 Sample Split for the Experimentation	68
3.2 Split-Half Reliabilities on the Fennema-Sherman Mathematics Attitudes Scales	74
3.3 Weightage to Content	91
3.4 Weightage to Objectives	92
3.5 Weightage to Difficulty Level	93
3.6 Blue Print of the Achievement Test	94
3.7 Reliability Index	95
4.1 ANOVA of Achievement Scores of Students in Experimental Groups and Control Group	109
4.2 ANCOVA of Achievement Scores of Students in Experimental Groups and Control Group	110
4.3 Adjusted Means and t value of Achievement score of Students in Experimental Groups and Control Group	111
4.4 ANOVA of Achievement Scores of Students in Experimental Group I and Control Group I	115
4.5 ANCOVA of Achievement Scores of Students in Experimental Group I and Control Group I	116
4.6 Adjusted Means and t value of Achievement score of Students in Experimental Group I and Control Group I	117
4.7 ANOVA of Achievement Scores of Students in Experimental Group II and Control Group II	121

4.8 ANCOVA of Achievement Scores of Students in Experimental Group II and Control Group II	122
4.9 Adjusted Means and t value of Achievement score of Students in Experimental Group II and Control Group II	123
4.10 ANOVA of Achievement Scores of Students in Experimental Group III and Control Group III	127
4.11 ANCOVA of Achievement Scores of Students in Experimental Group III and Control Group III	128
4.12 Adjusted Means and t value of Achievement score of Students in Experimental Group III and Control Group III	129
4.13 Summary of Analysis of the Achievement Scores of Ability Groups over Mixed Ability Group	135
4.14 Mean, Standard Deviation and t-test of significance of the Attitude Test Scores of Students in Experimental Group I	137
4.15 Mean, Standard Deviation and t-test of significance of the Attitude Test Scores of Students in Experimental Group II	139
4.16 Mean, Standard Deviation and t-test of significance of the Attitude Test Scores of Students in Experimental Group III	142
4.17 Summary of Analysis of the Attitude Scores in Ability Groups	146
4.18 ANOVA of Attitude Scores of Students in Experimental Groups and Control Group	148
4.19 ANCOVA of Attitude Scores of Students in Experimental Groups and Control Group	149

4.20 Adjusted Means and t value of Attitude score of Students in Experimental Groups and Control Group	150
4.21 ANOVA of Attitude Scores of Students in Experimental Group I and Control Group I	153
4.22 ANCOVA of Attitude Scores of Students in Experimental Group I and Control Group I	154
4.23 Adjusted Means and t value of Attitude score of Students in Experimental Group I and Control Group I	155
4.24 ANOVA of Attitude Scores of Students in Experimental Group II and Control Group II	158
4.25 ANCOVA of Attitude Scores of Students in Experimental Group II and Control Group II	159
4.26 Adjusted Means and t value of Attitude score of Students in Experimental Group II and Control Group II	160
4.27 ANOVA of Attitude Scores of Students in Experimental Group III and Control Group III	163
4.28 ANCOVA of Attitude Scores of Students in Experimental Group III and Control Group III	164
4.29 Adjusted Means and t value of Attitude score of Students in Experimental Group III and Control Group III	165
4.30 Summary of Analysis of Attitude Scores in Ability Groups over Mixed Ability Group	170
