

LIST OF TABLES

TABLE No.		Page
2.1	The three phases and the respective objectives of the study.	.. 65
2.2	Sample for pilot study	.. 66
2.3	Topics and the Methods of Teaching (Pilot Study).	67
2.4	Sample for item analysis study (GATSI)	.. 73
2.5	Sample for Reliability and Validity study (GATSI)	.. 74
2.6	Sample for item analysis study (Achievement Tests)	75
2.7	Sample for reliability and validity study (Achievement tests)	.. 76
2.8	Schematic Presentation of the Experimental Design	.. 77
2.9	Topics and methods of teaching	.. 78
2.10	Sample for final study	.. 82
2.11	Variables nature, tools and their codes	.. 89
3.1	Factors included in the test (GATSI) and their code	..102
3.2	Products and their mental abilities	..104
3.3	Products and the name of the tests constructed for testing them	..107
3.4	Concepts and number of items selected against each of them (Preliminary test)	..110
3.5	Keys for scoring originality (Question 17a)	..115
3.6	Keys for scoring originality (Question 17b)	..116
3.7	Unanswer type items and their difficulty and validity indices	..120
3.8	Items selected for final test from unanswer type	..124

(Continued)

(List of Tables continued)

Table No.		Page
3.9	Multianswer type items and their mean, SD, and Significance	.. 126
3.10	The t-ratio between the upper 27 percent and the lower ²⁷ percent for multianswer ^{type} items	127
3.11	Items selected for final test from multianswer type	.. 129
3.12	Concepts, number of items and SI factors selected for the final test	.. 131
3.13	Courses covered and the number of items selected under achievement tests (ACHA, ACHB, and ACHC) (Preliminary Tests)	.. 136
3.14	Validity and difficulty indices of the items selected for achievement tests (ACHA, ACHB and ACHC)	.. 138
3.15	Items selected for the final tests (ACHA, ACHB and ACHC)	.. 140
4.1	Summary of ANCOVA with the three covariates of SES, intelligence, and general creative thinking and the criterion variable of general creative thinking (CYAT)	.. 149
4.2	Significance of difference between means of the sub scores of general creative thinking (CYAT) for the control and experimental groups	.. 152
4.3	Summary of ANCOVA for the three covariates of SES, intelligence, and general creative thinking and the criterion variable of cognitive abilities in geography (MP)	.. 154
4.4	Significance of difference between mean scores of cognitive abilities for the control and experimental groups.	.. 156
4.5	Summary of ANCOVA for the three covariates of SES, intelligence and general creative thinking and the criterion variable of memory abilities in geography (MMP)	.. 158
4.6	Significance of difference between mean scores of memory abilities for the control and experimental groups	.. 160

(Continued)

(List of Tables continued)

Table No.		Page
4.7	Summary of ANCOVA for the three covariates of SES, intelligence, and general creative thinking and criterion variables of divergent production in geography (DMP)	.. 162
4.8	Significance of difference between mean scores of divergent production abilities for the control and experimental groups	.. 165
4.9	Summary of ANCOVA for three covariates of SES, Intelligence and General Creative thinking and criterion variable of convergent production abilities in geography (NMP)	.. 166
4.10	Significance of difference between mean scores of convergent production abilities for the control and experimental groups	.. 168
4.11	Summary of ANCOVA for three covariates of SES, intelligence and general creative thinking and the criterion variable of evaluation abilities in geography (EMP)	.. 170
4.12	Significance of difference between mean scores of evaluation abilities for the control and experimental groups	.. 172
4.13	Summary of ANCOVA for three covariates of SES, intelligence and general creative thinking, and the criterion variable of creative thinking in geography (GATSI)	.. 175
4.14	Significance of difference between mean scores of geography achievement test on SI model (GATSI) for the control and experimental groups	.. 177
4.15	Significance of difference between mean scores of geography achievement test on SI model (GATSI) (Operationwise) for the control and experimental groups	.. 180
4.16	Summary of ANCOVA for three covariates of SES, intelligence and general creative thinking, and the criterion variable of achievement I in geography (ACHA)	.. 182

(List of Table continued)

Table No.	Page
4.17 Summary of ANCOVA for the three covariates of SES, intelligence and general creative thinking and the criterion variable of achievement II in geography (ACHB)	..184
4.18 Summary of ANCOVA for three covariates of SES, intelligence and general creative thinking and the criterion variable of achievement III in geography (ACHC)	..186
4.19 Significance of difference between mean scores of achievement tests in geography for the control and experimental groups	..188
6.1 Schematic presentation of the experimental design	239
6.2 Hypotheses and ANCOVA results	..243
6.3 Hypotheses and t-test results	..245
