BARODA-390002, INDIA

Dear students,

We have taken a research work entitled "Entry to Higher Education in Bangladesh - An Investigation into Students' Characteristics" to investigate the characteristics of students who go for higher education in Bangladesh and also to investigate the constraints that prevent their way for going to higher education. We feel that the findings of the research will be helpful in formulating policies regarding higher education, increasing facilities for both curricular and co-curricular activities, creating guidance and counselling centres, planning examination reform etc. As you are the students who will go for higher education, we like to know some information about you and your family, your socio-economic conditions, home environment, co-curricular interests, aspirations etc. Hence we are giving you few forms/questionnaire to be filled up by you.

We assure you, the information provided by you will be kept strictly confidential and will be used only for research purpose.

Thanking you,

Dr. (Mrs.) P.M. Buch
