DIRECTIONS FOR THE GUIDANCE OF THE STUDENTS

Below you will find some statements about your college. Through these statements we are trying to know how far your college is trying to make you happy and successful. You can help the college in certain aspects by showing agreement or disagreement with these statements.

This is not a test and therefore there are no right or wrong answers. Against each statement there are three boxes corresponding to three types of responses — "Agree", "Disagree" and "Undecided". You are required to show your agreement or disagreement by putting ticks (✓) in the appropriate boxes. Try to show your agreement or disagreement with every statement. If you are at all unable to decide, only then put tick in the undecided box. Be sure to answer every statement.
