

## Parents

*Parents can plant magic in a child's mind, through certain words spoken with some thrilling quality of voice, some uplift of the heart and spirit. Parents are those wonderful people who want our lives to be happy our laughter, cry our tears and dream our dreams. They are always ready to give us their encouragement and support. No matter how grown up we become, no matter where we go in life or what we do, we never outgrow our parents love and will always be known as their children, no matter how old we become.*

*This thesis is dedicated to my wonderful Parents and Bhayia Bhabhi for all they have meant and for all they are.*
