SR.NO.	CHAPTER NAME	PAGE NO.
1.	INTRODUCTION Justification of study Objective of the study Hypotheses of the study Delimitations of the study	1-10
2.	REVIEW OF THE RELATED LITERATURE 2.1 Anthropometric characteristics 2.2 Physiological cost assessment 2.3 Postural stress 2.4 Muscular stress 2.5 Body discomfort 2.6 Weeding	11-54
3.	METHODOLOGY 3.1 Research design 3.2 Conceptual framework 3.3 Variables 3.4 Operational definitions 3.5 Description of the study area 3.6 Sampling design	55-81

	3.7 Data collection	
	3.8 Analysis of data	
4.	RESULTS I Descriptive Data 4.1 Background characteristics 4.2 Anthropometric characteristics 4.3 Information related to weeding operation 4.4 Discomfort experienced with traditional weeding tools 4.5 Testing of Hypotheses II Experimental data 4.6 Physiological cost of work 4.7 Muscular stress 4.8 Postural stress 4.9 Weeding efficiency 4.10 Output (area weeded) 4.11 Testing of hypotheses	82-
5.	SUMMARY	
6.	CONCLUSION	
7.	BIBLIOGRAPHY	
8.	APPENDIX
