

LIST OF TABLES

<i>Table No.</i>	<i>Title</i>	<i>Page No.</i>
Table 1.1	Various characteristics used to define formation or distinguish them from each other (Weller, 1960).	18
Table 2.1	Lithostratigraphy of the Western Lower Narmada Valley (Gupta et al., 1992; Merh, 1995; Godbole et al., 1996; Gopalan et al., 1979; Dassarma and Sinha, 1975; Prasad et al., 2017).	40
Table 3.1	Correlation of the lithostratigraphic units proposed by different workers for the Cretaceous sequence of the Lower Narmada Valley.	59-62
Table 4.1	Lithostratigraphy of the Bagh Group sedimentary succession, Western Lower Narmada Valley (Shitole et al., 2021).	69
Table 6.1	Morphological classification of the trace fossils based on the hierarchy of ichnotaxobase (Knaust, 2012).	148
Table 6.2	Morphometry of the 44 specimens of <i>B. hemispherica</i> . Note: Height is highly variable as compared to diameter.	161
Table 6.3	Trace fossils abundance, preservation, behavior, trophic type, trace makers are shown in the various facies of the Bagh Group and their stratigraphic range.	189
Table 7.1	Hierarchical orders based on duration.	211
