

List of Algorithms

Algorithm 1. Edge detection and thinning	51
Algorithm 2. Prominent boundaries detection.....	64
Algorithm 3. Foreground objects detection & background separation.	79
Algorithm 4. Generic steps for proposed image retrieval methods.....	116
Algorithm 5. Whole image color codes based image retrieval.....	117
Algorithm 6. Foreground color codes based image retrieval.	147
Algorithm 7. Foreground shape correlation based image retrieval.	159
Algorithm 8. Foreground color codes & foreground shape based image retrieval.	165
Algorithm 9. Face extraction from images containing complex background.	181
