

ACKNOWLEDGEMENT

The present study was carried out at the **Department of Pharmacy, The M. S. University of Baroda**, Gujarat in collaboration with the **National Institute of Cell Sciences, Pune**. Financial support was provided by the **University Grants Commissions**, New Delhi.

It is a pleasure to thank many people who made this thesis possible.

I gratefully acknowledge my parents, my sisters for their encouragement, prayers, magnificent support, love and patience throughout my years of education.

I express my deep sense of gratitude to my Ph.D. supervisor **Dr. S. H. Mishra, Professor of Pharmacognosy**, for his enthusiasm, inspiration, and his great efforts to explain things clearly and simply, throughout my tenure he provided me encouragement, sound advice and great help while planning and executing the experiments.

My sincere thanks are also due to **Dr. A. N. Mishra, Professor and Head, Pharmacy** Department, Faculty of Technology and Engineering, The M.S.University of Baroda, for providing necessary facilities.

I thank **Padmashree Dr. G.C. Mishra, Director, NCCS**, for getting me an opportunity to work at National Center for Cell Science, Pune and providing all the necessary facilities.

I sincerely thank and express my gratitude to **Dr Sandhya Sitaswad, Scientist, NCCS Pune**, whose guidance, keen interest, helpful criticisms and encouragement served as a constant inspiration during the entire course of my stay at NCCS.

My heartfelt thanks to Prof. R. Balaraman and Prof. M. R. Yadav, Former Coordinators, Dr. (Mrs.) Rajani Giridhar Coordinator, Center for PG studies and Research in Pharmacy, Prof. R. S. R. Murthy, Pharmacy Department, Faculty of Technology and Engineering, The M. S. University of Baroda, for providing necessary facilities to carryout the research work.

I also extend my sincere thanks to all the teaching staff of Pharmacy Department, Faculty of Technology and Engineering, The M.S.University of Baroda.

I also thank to all non teaching staff of Pharmacy department for their co-operation and support.

I convey my heart felt thanks to my friends Santosh kumar, Sandeep kumar, Vasundara Kain for their help in cell line studies without their help it was not possible.

I am indebted Ashwini Atre for her help with confocal studies and Swapnil for his assistance in Flowcytometry applications.

My thanks are due to Vaibhav Analytical Laboratory, Ahmedabad, for Elemental analysis of the plant materials, RSIC, Punjab University Chandigarh and for providing the spectral data of the compounds.

I am also grateful to Dr. Ravindra Pasale Baroda Clinical Laboratory, Baroda for his great help in histopathological studies.

No words can express my gratefulness towards my dear friends Somashekar Padashetty, Krishnamurthy G, Pallavi Rai, Anand Bafna for their unforgettable help, support and encouragement during the entire tenure of work.

My sincere thanks are due to my colleagues Mannan Raval, Suresh Soletti, Mayur Patel, Ashish Trivedi, Uttara Joshi and all my friends in the pharmacy department for their co-operation.

I also acknowledge all those who have directly or indirectly helped me in the fulfillment of this work.

I thank the Almighty for giving me the strength and patience to work through all these years so that today I can stand proud.

Manish S Lavhale
