( Whole world depends on this indispensable water  
All animate and inanimate objects around us  
require water for their existence  
Food we Consume is incomplete without water  
Water is required by all animals  
Water is full of vital energy  
Water is full of supremacy  
Water is in cosmic state  
Water is knowledge  
Water is truth  
Water is liberty and symbol of parity  
Water is the source for any form of life  
Water is the source for any form of energy  
Finally, anything we try to identify requires  
water and depends parasitically on water  
To this unique indispensable part of our life  
we pray )
