

CONTENTS

Acknowledgement	i - ii
List of Abbreviations	iii - iv
Introduction	1 - 22
Materials and Methods	23 - 42
Chapters	
1 In-ovo screening of two insecticide formulations: Study of gross morphological and skeletal malformations	43 - 75
2 In-ovo exposure to insecticide formulations: Signs of toxicity during embryonic development	76 - 103
3 Haematological and biochemical changes in insecticide intoxicated day old hatchlings and early embryos	104 - 125
4 Evaluation of insecticide induced developmental immunotoxicity in RIR chicks	126 - 141
5 Evaluation of genotoxic potential using comet assay and micronucleus test	142 - 161
General Considerations	162 - 179
Bibliography	180 - 211
