

LIST OF TABLES

Table No.	Title of the table	Page no.
2.1	Classification of men with chronic conditions by working capacity	73
2.2	Classification of impairments and handicaps	74
2.3	Classification of impairments and handicaps	75
2.4	Agerholm's classification of key handicap	75
2.5	Causes of disability	80
4.1	Distribution of respondents according to their personal characteristics	157
4.2	Distribution of respondents according to their family characteristics	160
4.3	Distribution of respondents according to their disability related characteristics	162
4.4	Sexwise distribution of the selected background characteristics of the respondents	167
4.5	Distribution of the cause of disability of the respondents according to their age	168
4.6	Occupationwise distribution of the education of the respondents	169
4.7	Distribution of the respondents by knowledge regarding consumer rights	173
4.8	Level of knowledge of the respondents regarding consumer rights	178
4.9	Intensity value for knowledge regarding consumer rights	179
4.10	Mean score of knowledge regarding consumer rights according to personal characteristics	182
4.11	Mean score of knowledge regarding consumer rights according to selected family characteristics	184
4.12	Mean score of knowledge regarding consumer rights according to selected disability related characteristic	187

4.13	Distribution of the respondents by the utilization of consumer rights	192
4.14	Source of information regarding consumer rights	196
4.15	Extent of utilization of consumer rights by the respondents	198
4.16	Intensity value for utilization of consumer rights	199
4.17	Mean score of utilization of consumer rights according to personal characteristics	200
4.18	Mean score of utilization of consumer rights according to selected family characteristics	203
4.19	Mean score of utilization of consumer rights according to selected disability related characteristics	207
4.20	Distribution of the respondents by the problems faced in utilizing consumer rights	212
4.21	Extent of problems faced in utilizing consumer rights by the respondents	214
4.22	Mean score of problems faced in utilizing consumer rights according to personal characteristic	215
4.23	Mean score of problems faced in utilizing consumer rights according to selected family characteristics	216
4.24	Mean score of problems faced in utilizing consumer rights according to selected disability related characteristics	217
4.25	Distribution of the respondents by knowledge regarding benefits provided by the government	220
4.26	Level of knowledge of the respondents regarding benefits provided by the government	223
4.27	Intensity value for knowledge regarding benefits provided by the government	224
4.28	Mean score of knowledge regarding benefits according to personal characteristics	226
4.29	Mean score of knowledge regarding benefits according to selected family characteristics	230

4.30	Mean score of knowledge regarding benefits according to selected disability related characteristics	233
4.31	Distribution of the respondents by the utilization of benefits provided by the government	236
4.32	Extent of utilization of benefits provided by the government	238
4.33	Intensity value for the utilization of benefits provided by the government	239
4.34	Mean score of utilization of benefits according to personal characteristics	241
4.35	Mean score of utilization of benefits according to selected family characteristics	242
4.36	Mean score of utilization of benefits according to selected disability related characteristics	244
4.37	Distribution of the respondents by the problems faced in utilizing benefits	247
4.38	Extent of problems faced in utilizing benefits by the respondents	251
4.39	Mean score of problems faced in utilizing benefits according to personal characteristics	252
4.40	Mean score of problems faced in utilizing benefits according to selected family characteristics	253
4.41	Mean score of problems faced in utilizing benefits according to selected disability related characteristics	255
4.42	Attitude of the respondents towards disability	257
4.43	Intensity value of the attitude of the respondents towards disability	258
4.44	Mean score of attitude towards disability according to personal characteristics	260
4.45	Mean score of attitude towards disability according to selected family characteristics	261
4.46	Mean score of attitude towards disability according to selected disability related characteristics	262

4.47	Correlation between selected independent variables and intervening, dependent variables	266
4.48	t-values showing significant difference in selected intervening variables due to selected dependent variables	270
4.49	t-values showing significant difference in selected intervening variables due to selected dependent variables	273
4.50	t-values showing significant difference in the attitude towards disability due to selected independent variables	274
4.51	Analysis of Variance showing significant difference in the attitude towards disability due to selected independent variables	275
4.52	Analysis of Variance showing significant difference in selected intervening variables due to selected independent variables	277
4.53	Analysis of Variance showing significant difference in selected intervening variables due to selected independent variables	279
4.54	Correlation Coefficient between intervening and dependent variables	281
4.55	Multiple Regression Analysis for utilization of consumer rights and independent variables	284
4.56	Multiple Regression Analysis for utilization of consumer rights showing significantly affecting independent variables	284
4.57	Multiple Regression Analysis for utilization of consumer rights and intervening variables	287
4.58	Multiple Regression Analysis for utilization of consumer rights showing significantly affecting intervening variables	287
4.59	Statistical analysis showing facilitators and constraints in utilizing consumer rights	289

4.60	Multiple Regression Analysis for utilization of benefits and independent variables	290
4.61	Multiple Regression Analysis for utilization of benefits showing significantly affecting independent variables	291
4.62	Multiple Regression Analysis for utilization of benefits and intervening variables	294
4.63	Multiple Regression Analysis for utilization of benefits showing significantly affecting intervening variables	294
4.64	Statistical analysis showing facilitators and constraints in utilizing benefits	296
