

LIST OF TABLES

TABLE NO.		PAGE
3.01	: Categorization of Variables and the Predicted direction of relationship of all the independent variables with the four dependent variables...	86
5.01	: Mean, SD of the distribution of scores of the variable 'Time of Awareness' ...	118
5.02	: Mean, SD of the distribution of the scores of the variable 'Time of Adoption' ...	121
5.03	: Mean, SD of the distribution of scores of the variable 'Internalization'...	124
5.04	: Mean and SD of the distribution of scores of the variable 'Process of self-perceived change orientation'...	126
5.05	: Descriptive statistics of some independent variables ...	128
5.06	: Distribution of sample according to sex and urban or rural background of the teachers ...	131
5.07	: Classification of teachers according to the Organisational Climate of the schools	131
5.08	: Classification of schools according to the Organisational Climate of the schools ...	132
5.09	: The coefficients of correlation of independent variables with the four criterion variables ...	133
5.10	: Results of step-wise regression analysis using all the independent variables and the criterion variables the 'Time of Awareness' ...	185
5.11	: Results of step-wise regression analysis using all the independent variables and the criterion variable:- 'the Time of Adoption' ...	187

(List of Tables)

TABLE NO.	PAGE
5.12 : Results of step-wise regression analysis using all the independent variables and the criterion variable - the 'Internalization of the innovation'	... 189
5.13 : Results of step-wise regression analysis using all the independent variables and the criterion variable - the 'Process of Self-Perceived Change Orientation'	... 191
5.14 : Results of step-wise regression analysis using all the independent variables and the combined scores of all the four criterion variables, viz. the 'time of awareness', the 'time of adoption', 'internalization' of the innovation' and the 'process of self-perceived change orientation'	... 193
5.15 : Multiple R, Regression Coefficients and the Alpha values for the variable the 'Time of Awareness'	... 201
5.16 : Multiple R, Regression coefficients and the Alpha values for the variable the 'Time of Adoption'	... 202
5.17 : Multiple R, Regression coefficients and the Alpha values for the variable the 'Internalization'	... 203
5.18 : Multiple R, Regression coefficients and the Alpha values for the variable the 'Process of Self-Perceived Change Orientation'	... 204
5.19 : Multiple R, Regression coefficients and the Alpha values for the combined score of all the four dimensions of the diffusion process, viz. the 'Time of Awareness', the 'Time of Adoption', 'Internalization' and the 'Process of Self-Perceived Change Orientation'	... 205

(List of Tables)

TABLE NO.		PAGE
5.20	: Correlation Matrix of all the four dimensions of the diffusion process, viz. the 'time of awareness', the 'time of adoption,' 'internalization', and the 'process of self-perceived change orientation.'	.. 210
5.21	: A summary of variables explaining significantly the 'time of awareness' the 'time of adoption', 'internalization', the 'process of self-perceived change orientation' and the 'diffusion process' within a school system.	.. 213
5.22	: The correlation matrix of the variables grouped as 'Perception of Superior'	.. 220

 LIST OF GRAPHS

GRAPH NO.		PAGE
I	: Distribution of Scores of the 'Time of Awareness'.	.. 119
II	: Distribution of Scores of the 'Time of Adoption'.	.. 122
III	: Distribution of Scores of 'Innovation Internalization.'	.. 125
IV	: Distribution of Scores of the 'Process of Self-Perceived Change Orientation'.	127
