

LIST OF FIGURES

<u>Figure No.</u>		<u>Page No.</u>
1	Pre-embryonic stage of development	... 3
2	Embryonic stage of development	... 3
3	Embryonic stage of development	... 5
4	Fetal stage of development	... 5
5	Nutrition of the fetus	... 10
6	Three postnatal stages of iron balance and erythropoiesis.	... 45
7	Fetal liver iron stores in relation to gestational age in low and high income groups.	... 86
8	Fetal liver iron stores in relation to growth status in low and high income groups.	... 95
9	Fetal tissue magnesium stores in relation to growth status.	... 134
10	Fetal muscle magnesium concentration in relation to growth status.	... 135
11	Organ growth pattern in low and high income groups (A, B and C).	... 190
12	Fetal tissue weights as percent of body weight in low and high income groups.	... 195
13	Weights of organs in fetuses in relation to growth status.	... 199
14	Fetal somatic measurements at different stages of gestation in low and high income groups (A & B).	... 205

List of figures (Contd.)

<u>Figure No.</u>		<u>Page No.</u>
15	Somatic measurements in neonates at different gestational ages in low and high income groups (A, B, C and D). ...	218
16	Somatic measurements of small-for-gestational age and premature infants expressed as per cent appropriate for gestational age in low income group. ...	234
