

Acknowledgement

I will start by appreciating the value of the Biochemistry Department in the most important phase of my life. This is the place that taught me – R tends to Research and how research aptitude can change your “LIFE”. Biochemistry department, MSU would always be special for all those started their research arrest here.

My long “THANKS GIVING” journey will start by expressing my deepest gratitude to my research supervisor Dr. Laxmipriya Nampoothiri, a constant source of energy and support right from the first day. My journey with ma'am started with my dissertation work which continued to second major part of my degree due to her guidance and constant support in all issues – from long, serious work discussions to silly grammatical mistakes. Her constructive criticism, unsparing and quick sighted support helped me overcome all hurdles during my journey and keep me on my toe to complete my goals. Her sincerity towards her work, time management and punctuality are some of the qualities which I have always tried to assimilate into me. Thank you ma'am for being my Guide, Mentor, Elder sister and giving me incessant support during this journey.

I am grateful to Prof. Ramesh Goyal and Prof. Yogesh Singh, former Vice Chancellors of The Maharaja Sayajirao University of Baroda, for giving me an opportunity to work at this prestigious Institution and providing all the available facilities for the completion of my thesis work.

I would like to acknowledge Late Prof. Nikhil Desai, Former Dean, Faculty of science, for his kind help in administrative work and also for his readiness support even during difficult situations.

I am sincerely thankful to Prof. Sarita Gupta, Head, Department of Biochemistry, for constant support, fruitful suggestions and for all the facilities available in the department for my research work which helped me finish my work without hindrance.

I express my heartfelt gratitude to Prof. G Naresh Kumar for his never-ending support and delightful conversations. I would like to acknowledge Prof. Rasheedunnisa Begum, for her helpful suggestions during annual seminars and encouragement. My sincere thanks to Acharya Sir for endless support and productive suggestions which helped me fulfill my goal. I would like to thank Prof. C Ratnaprabha, Prof. Pushpa Robin, and Dr. Rajesh Singh all of whom let me use lab facilities in their respective Labs and helped me to continue my work smoothly. My sincere thanks to Dr. Ravi Vijayvargia for providing technical help and suggestions that started up my stuck work. I also thank Dr. Devesh Suthar, Dr. Gopalji Gopal, Dr. Jyoti Vasu for their kind concern.

I would like to acknowledge Prof. Arun Arya, Head, Department of Botany for providing Plant material from arboretum without fail so I could continue my plant work smoothly. I also wish to thank Vasant Kaka and all other people of arboretum, who always helped me get my plant material in "Live" condition so my work would not be hampered and allowed me to use other materials from the arboretum apart from Aloe vera!

I would like to extend my gratitude to DBT for Research fellowship and The M. S. University of Baroda for University fellowship without which my research work would not have been possible. I would like to thank DBT-MSUB-ILSPARE for providing me the instrumental facilities. My experiments would not have been completed without it.

I am highly grateful to the members of the office especially Pethe Sir (Thank you sir for giving me my First Pet name 'Meera'!), Akshita Mam and Rameshbhai Nare (for providing every kind of chemical from the store at any time), Ramesh Kamle, Shaileshbhai, Vyashbhai (Thanks for all the technical help related to University fellowship), Manishbhai, Sandipbhai (for keeping cleanliness in Lab), Anilbhai, Kiranbhai, Balwantbhai for all kinds of help and for providing available facilities whenever I needed in the Department.

I would like to mention special thanks to Animal house Staff: Rameshbhai, Vijaybhai & Narayanbhai for helping me in animal handling, issuing and all animal related issues as well as taking care of all my experimental timings. Also,

thank you for providing early morning tea in the animal house sometimes during blood collection.

I cannot complete my THANKS GIVING journey without mentioning about Dr. Padmanabhi S. Nagar, Department of Botany without whom I could not imagine to do my Plant work. I can consider him as Co-mentor (unofficial). Thank you sir for your endless support and critical evaluation during presentations as well as work discussions and especially in improvement of my speech and providing all kind of help that could support my PhD work.

I am grateful to all my teachers at Department of Biosciences, Sardar Pater University- Head, Prof. Kiran Kalia, Dr. Vasudev Thakkar, Dr. R. B. Subramanian and Dr. Natarajan whose teachings and knowledge sharing opened up my scientific approach towards science and research.

I am extremely obliged to Prof. Sunita Shailajan, Ramnarain Ruia College, Mumbai University and Dr Shashikumar Menon, Therapeutic Drug Monitoring (TDM), Laboratory, Mumbai, to allow me to work in her Lab for all kind of Chromatographic analysis and technical support which helped me to fulfil my Phytochemistry work without fail. I would like to deeply thank to Lab student of her: Ashish Singh (Endless discussion for all troubleshooting), Neelam and Harshwardan (Guiding all technical Help), Harshada (Make me feel Home in Mumbai), Bhavesh (helping in critical technical problems with fruitful suggestions all the time), Guari, Archana for helping me throughout all technical studies. Thanks all for all kind of help and feel me Mumbai is like my second home. I also extremely thankful to ShushilaAunty (My so called 'Mom' in Mumbai) who made me feel like home and thanks to make special dabba for me every day. My sincere love to aunty, Shruti and Shreya (Small and notorious sisters) people who make me feel like family in Big city like Mumbai. Thank you all to make my first experience and special memories of my Mumbai diaries exceptional and close to my heart.

I am highly indebted to Prof. Michael Aruldas, Head, Department of Endocrinology, PGIBMS, Taramani Campus, Madras University, Chennai to allow me to work in their respective labs of the department. I would like to

thank Prof. Balasubramanian, allowing me to come over there and to learn the molecular techniques for my PhD work that helped me a lot to fulfil my research work. My sincere thanks to Prof. Arunakaran and Dr. Ravi for their kind help and suggestions. My hugely thanks to all PhD students of PGIBMS who helped me a lot to learn the techniques and cherish my 'Chennai' experiences: Banu mam, Selvraj, Senthil, Kathires, Dinesh, Satish for all technical guidance and help during my training. Satya, Sambavi, Rajesh helping me to introduce PGIBMS campus, Tea Company in canteen and explore Hugh Chennai (In free time!!). I would like to M.Phil students and my hostel girls: Laxmi and Narmada, who made me feel like home in Chennai and let me experience real Chennai. I also would like to thank Divya, trainee, Mysore University giving me all time company in Chennai friend cum sister to help in all kind of issues and helped in Chennai as well as Mysore with best Company I ever had.

I would like to thank Dr. Douglas Stocco at Texas Tech University Health Sciences Center, Lubbock, United States, Prof. Rakesh Tyagi, Special Centre for Molecular Medicine, JNU, New Delhi, Dr. J Ian Mason, Emeritus Profesor of Clinical Biochemistry, MRC Centre for Reproductive Health for providing antibodies for my PhD work so I could fulfil my research work.

I am deeply grateful to Prof. B. Suresh for helping with microscopic analysis for my Ph.D work. I am also extremely thankful to Pranav for helping me to analyze Gel data and microscopic analysis. Also, helping in thesis till last date. Thank you very much!

I would like to sincere thanks to Dr. Prakash Pillai helping to learn dissect rat brain first time, to help in all technical problems regarding my research work and allow me to use available their Lab facilities. I also would like to thank his Lab Ph.D student: Ashutosh, Zalak, Jaldeep, Lipi, Arpita, Juhi, for ready always ELISA reading and helping me even small technical issues which helped me out for my work.

After going around, its true saying that back home is important. Thereby, Biochemistry Department became like a second home for me. So, it's not possible

to complete without expressing gratitude for all the Family members. Best to start with the seniors who were always by my side in the initial phase of my journey: Hiren sir (Like elder brother who was always a source of positive energy and productive suggestions), Niraj Sir (who taught me first time how to handle a rat!), Hemendra Sir (always ready to troubleshoot the problems), Iqbal Sir (Always helpful), Heena didi and Jyotika didi (make me feel like younger sister and helped in all kind of issues!!), Chirayu Sir (Helped to learn all statistical analysis), Mukta didi and Purva didi (Always there to share and discuss with delight), Purva didi (Always delighted to talk with a smile), Prashant Sir (Always guided in animal experiments), Aditi didi (Always ready to guide), Keyur Sir (always showed concern for my researchwork), Anubha didi (Always provided positive energy), Nideesh (Providing all kind of technical help in Lab), Maulik Sir, Pradip Sir, Vikash Sir.

I am delighted to share many memorable moments with accompanying Research Scholars like Swapanali didi, Hemanta, Mrinal, Vijay Makwana, Jitendra, Kavita, Chanchal, Muskan, Krishma (Best buddy, Roommate, Classmate, Counselor with whom I shared all the tiny things and who always stood by my side in every situation with a smile saying “ALL is Well”), Tushar (Always there to help with company in Food!), Akhilesh (Always helped to troubleshoot the technical problems), Supriya (Bubbly with ability to chat unstoppable! and make me feel Lively and joyful), Divya (Always asks for concern and help whenever I need with company for tea at DD), Rishikesh (Always ready to help), Ankita (Always comes with sweet smile), Abhay (Efficient person with advance technology), Sejal (Downstair Padoshi).

I also would acknowledge Junior Ph.D students: Archana, Ruma, Ragita, Mitul, Pranshu, Hemang, Komal Rawal, Komal Chavda, Gaurav (helping in all troubleshooting for laptop work), Tina, Shoaib, Ashlesha, Paresh (Always ready to fight for rights!!), Milton (ever ready for rubbish talk as well as scientific discussion), Kritarth (Silent man), Khayti, Laxmi (Telugu cum Bihari girl with Bindass attitude).

It would not be possible to complete the difficult task of thesis submission in short time period without My Lab mates Nirja (Beauty with Brain) and Arpi (Bindass Girl with Good sense of humour) who helped me a lot for completion of thesis from data analysis and check to writing, and proof reading. I will cherish all special memories we spent together including LPL parties, evening Pudinawali Chay at Bhabhi's place, munching at Dairy Den circle, Night out in Lab, some experiments with Foods (Specially from Arpi's Kitchen) along with delicious kheer and Dahi wada. All extra Gyan provided by you both Budhhijivi might help me in all aspects of life further!! Thank you girls again for all kind of help. You make me feel like younger sisters (Sometime elder) and feel like home in Lab. Thanks a Lot Rocking Girls !!!

I also would like to thank M.Sc dissertation students: Shraddha (Chatterbox), Kedar, Bhavna (Lively girl), Revatee (Brainy), Rakesh, Sumit, Ankita, Aishwarya, Heena, Mitali, Kashmira, Mittal, Shivani, Anita, Purna. I shared with whom memorable moments in Lab.

Now it's time to thank the close ones who matter a lot to me.

It would have never been possible without constant support of my best buddies: Neha (Friend, Neighbor, counselor, sister who always understood my each and every nerve and keep pushing me to fulfil my goal), Dhaval (Always source of positive energy, anytime help and act like rate limiting regulator which keep me on my toe to complete my work, Priyanka (Met by Chance) (Full Powerhouse of Energy who makes me lively along with all kind of suggestions to guide me throughout my work and also "Panipuri companion"), both of them always available for me whenever I need so thank you n love you. Ronal (Bindass and Joyful), Zubin (Sincere Boy).

There are no words to thank my loving family but I would like to express my gratitude for their enormous support throughout my research work with patience and encouragement. I totally dedicate my thesis to my Mom and Dad without whose support I can't imagine myself at this place. Their hard work and tireless inputs taught me to live a competitive life

with spirit. Love you both. I also would like to thank my Big brother and Bhabhi whose constant and cooperative support helped me to dig into my work totally without any hesitation till late night also. My sincere thanks to both my loving sisters and their families who were always supportive throughout this journey and world's best and cutest nephew Daivik whose smile made me smile always.

This piece of work would not have been complete without my experimental Rats.

Lastly, I want to thank the most important being who gave me great patience, courage and strength to fulfill all my dreams and goals that were my vision and that is almighty God.

Finally, I thank one and all in case I forgot to mention who have helped me complete my Ph.D work.

Radha Maharjan
