

Foliicolous Fungi of Certain Forest Trees and Their Ecofriendly Management

CONTENTS

	Page No
1. Introduction	1 - 35
2. Materials & Methods	36 - 48
3. Results and Discussion	
PATHOLOGICAL STUDIES	49 - 66
1. Survey of different Forest areas in Gujarat.	
2. Isolation of different foliicolous fungi from certain forest trees	
3. Identification of fungus based on morphological characters	
4. Diseases symptoms	
5. Pathogenicity test	
6. Bio – control of foliicolous fungi	
 B. CULTURAL STUDIES	 67 - 105
7. Selection of suitable media	
8. Selection of suitable pH	
9. Selection of suitable temperature	
10. Effect of different Carbon source on growth of four foliicolous fungi	
11. Effect of different Nitrogen source on growth of four foliicolous fungi	
12. Utilization of different sugars by four fungi	
13. Effect of different vitamins on growth of four selected fungi	
 4. Summary	 106- 109
5. References	110- 122
 Appendice	 123
