

INDEX

Chapter No.	Content	Page No.
I	INTRODUCTION	
1.1	Introduction	1
1.2	Proposed Plan of work	6
1.3	References	7
II	LITERATURE SURVEY	
2.1	Malaria	
2.1.1	Introduction	9
2.1.2	Biology of Malarial Infection	9
2.1.3	Immunity to Malaria	11
2.1.4	Classification of Antimalarial Agents	12
2.1.5	Potential new antimalarial drugs	14
2.1.6	References	15
2.2	Microspheres	
2.2.1	Introduction	16
2.2.2	Desirable characters of colloidal carriers	17
2.2.3	Advantages of microspheres	17
2.2.4	Dis-advantages of microspheres	18
2.2.5	Desirable criteria for preparation of microspheres	18
2.2.6	Microsphere preparation methods	18
2.2.7	Characterization	22
2.2.8	Applications of microspheres	23
2.2.9	References	25
2.3	Implants	
2.3.1	Introduction	26
2.3.2	Advantages	26
2.3.3	Dis-advantages	27
2.3.4	Injectable Implants	27
2.3.5	Intramuscular Implants	28
2.3.6	Desirable characters of injectable implants	28
2.3.7	Development of implantable therapeutic systems	29
2.3.8	Medical aspects of implantation	30
2.3.9	References	31
2.4	Profile of chloroquine phosphate [CQP]	
2.4.1	Introduction	32

Chapter No.	Content	Page No.
2.4.2	Description	32
2.4.3	Physicochemical properties	33
2.4.4	Clinical Pharmacology	33
2.4.5	Pharmacokinetics	35
2.4.6	Indications	36
2.4.7	Dosage & administration	36
2.4.8	Contraindications	38
2.4.9	Adverse drug reactions	38
2.4.10	Warnings and precautions	39
2.4.11	Drug interaction	41
2.4.12	Qualitative analytical profile of chloroquine phosphate	41
2.4.13	Quantitative analytical profile of chloroquine phosphate	43
2.4.14	References	48
2.5	Profile of mefloquine hydrochloride [MQH]	
2.5.1	Introduction	57
2.5.2	Description	57
2.5.3	Physiochemical properties	57
2.5.4	Clinical Pharmacology	58
2.5.5	Pharmacokinetics	59
2.5.6	Indications	60
2.5.7	Dosage	60
2.5.8	Contraindications	61
2.5.9	Adverse reactions	61
2.5.10	Warning and precautions	62
2.5.11	Drug interaction	63
2.5.12	Qualitative analytical profile of mefloquine hydrochloride	63
2.5.13	Quantitative analytical profile of mefloquine hydrochloride	65
2.5.14	References	71
2.6	Profile of Ethyl Cellulose	
2.6.1	Chemistry of ethyl cellulose	76
2.6.2	Description	76
2.6.3	Properties	76
2.6.4	Uses	77
2.6.5	Stability	77

Chapter No.	Content	Page No.
2.6.6	Storage	78
2.6.7	Incompatibilities	78
2.6.8	Precautions	78
2.6.9	Review of work done	79
2.6.10	References	88
2.7	Profile of Chitosan	
2.7.1	Chemistry of chitosan	92
2.7.2	Description	92
2.7.3	Properties	92
2.7.4	Uses	93
2.7.5	Storage	94
2.7.6	Incompatibilities	94
2.7.7	Review of work done	95
2.7.8	References	99
III	EXPERIMENTAL METHODS, RESULTS & DISCUSSION	
3.1	Analytical Methods	
3.1.1	Introduction	100
3.1.2	Materials	100
3.1.3	Estimation of CQP in 0.01 N HCl	100
3.1.4	Estimation of chloroquine phosphate (CQP) in phosphate buffered saline pH 7.4 (PBS)	104
3.1.5	Estimation of chloroquine phosphate in rat blood & tissues	107
3.1.6	Estimation of mefloquine hydrochloride (MQH) in methanol	119
3.1.7	Estimation of mefloquine hydrochloride in pH 7.4 PBS	123
3.1.8	Estimation of mefloquine hydrochloride in rat blood & tissues	127
3.1.9	Discussion	140
3.1.10	References	153
3.2	Preparation of microspheres	
3.2.1	Introduction	154
3.2.2	Materials	155
3.2.3	Equipments	155

Chapter No.	Content	Page No.
3.2.4	Preparation of ethyl cellulose coated CQP microspheres	155
3.2.5	Preparation of chitosan coated CQP microspheres	156
3.2.6	Preparation of ethyl cellulose coated MQH microsphere	157
3.2.7	Factorial Design	159
3.2.8	References	163
3.3	Characterization & in-vitro evaluation of microspheres	
3.3.1	Introduction	165
3.3.2	Materials	165
3.3.3	Characterization of microspheres	166
3.3.3.1	Percentage yield	166
3.3.3.2	Particle size	166
3.3.3.3	Morphology	166
3.3.3.4	Drug content	167
3.3.3.5	Drug release profile	167
3.3.4	Results and discussion	168
3.3.4.1	Results	168
3.3.4.2	Statistical analysis	194
3.3.4.3	Discussion	208
3.3.5	References	226
3.4	In-vivo study	
3.4.1	Introduction	228
3.4.2	Materials	228
3.4.3	Selection of Animals	229
3.4.4	Administration of microspheres and free drug	229
3.4.5	Collection of blood and tissue samples	229
3.4.6	Analysis of blood and tissue samples	230
3.4.7	Results and discussion	231
3.4.7.1	Results	231
3.4.7.2	Discussion	242
3.4.8	References	249
IV	SUMMARY & CONCLUSIONS	
4.1	Summary	251
4.2	Conclusions	256
