

ACKNOWLEDGEMENTS

The author wishes to express his deep sense of gratitude to Prof.S.S.Merh, Head of the Department of Geology,M.S.University, Baroda for the valuable guidance and supervision during the entire course of this research work. Without his constant encouragement, it would not have been possible for the author to complete this thesis.

The author is grateful to Shri S.N.Talukdar,Member(Exploration), ONGC, Dehra Dun for his inspiration for field work and allowing him to complete this work. The special acknowledgement is due to Shri A.K.Gupta, the then General Manager of Western Region, Baroda for permission to pursue this research work. He is also grateful to Shri K.L.N.Rao, General Manager(Exploration) and Dr.A.T.R.Raju, the then Chief Geologist, ONGC, Baroda for taking keen interest in the work and providing all field and laboratory facilities.

He thankfully acknowledges the spontaneous help received from his colleagues Dr.M.G.Hardas and Dr.N.P.Singh, ONGC, Baroda in many ways, and particularly helping him in carrying out sedimentological and macropaleontological studies respectively.

The author wishes to express his gratitude towards the staff of the Department of Geology, M.S.University, Baroda for spontaneous help and facilities for the research work.

He acknowledges with thanks the assistance received from S/Shri N.R.Patel and H.D.Suthar, Geologists and A.A.Kazi, ONGC, Baroda. Shri Arjun Lal deserves due acknowledgement for his fine drafting work of figures done in his spare time. He must express his appreciation for excellent printing of the photocopying work done by Shri A.S.Shah. Thanks are due to Shri M.M.Dalwani for the neat typing work.

Lastly the author expresses his deep appreciation for his wife, Shakun and daughter, Rachna for their constant support in connection with this work, and for maintaining a serene atmosphere necessary for research work.
