

### ACKNOWLEDGEMENTS

I wish to express my gratitude to Prof. O.D. Gulati, M.D., M.S., F.A.M.S., Head of the Department of Pharmacology, Medical College, Baroda, India for his guidance and encouragement throughout these studies. I am greatly indebted to Prof. Juha P. Kokko, M.D., Ph.D., Chief of Nephrology, The University of Texas Health Science Centre at Dallas for his advice and suggestions, critical review of this work, and finally for providing facilities and funds to carry out this work in his department.

I am also thankful to Prof. P.T. Acharya, Dean of Medical College, Baroda, India for his encouragement and interest in these studies. I wish to express my appreciation to Mrs. Virginia Borcoman and Mr. James Harrison. Their conscientious efforts were invaluable in the completion of these studies.

Finally, I am greatly indebted to my wife Bhama whose patience and sense of humor helped sustain both of us during the years of my work.
