

	INDEX FOR FIGURES	PAGE
Figure 1:	Structure of AVP and Oxytocin.....	24
Figure 2:	Schema of the current view on the cellular action of ADH.....	43
Figure 3:	Purification of ¹²⁵ I-labelled AVP by chromatography	72
Figure 4:	Estimation of recovery of a known amount of ADH from RIA.....	77
Figure 5:	Recovery experiments by measuring plasma ADH after administration of a known amount of ADH to patients with pituitary DI.....	78
Figure 6:	Dose-response curve of Ach-induced ADH release in dogs.....	82
Figure 7:	Ach-induced changes in urine flow and plasma osmolality in dogs.....	83
Figure 8:	Dose-response curve of nicotine-induced ADH release in dogs.....	84
Figure 9:	Nicotine-induced changes in MABP, urine flow, and plasma osmolality in dogs.....	85
Figure 10:	Dose-response curve of McN-A-343-11-induced ADH release in dogs.....	86
Figure 11:	McN-A-343-11-induced changes in MABP, urine flow, and plasma osmolality in dogs.....	87
Figure 12:	Dose-response curve of A-11-induced ADH release in dogs.....	89
Figure 13:	Changes in MABP, urine flow and plasma osmolality induced by A-11 in dogs.....	90
Figure 14:	Dose-response curve of NE-induced ADH release in dogs.....	91
Figure 15:	Changes in MABP, urine flow, and plasma osmolality induced by A-11 in dogs.....	92

	Page
Figure 16: Effect of mecamylamine on ADH release induced by osmotic stimulation in dogs.....	94
Figure 17: Effect of pentolinium on ADH release induced by osmotic stimulation in dogs.....	95
Figure 18: Effect of phentolamine on ADH release induced by osmotic stimulation in dogs.....	96
Figure 19: Effect of propranolol on ADH release induced by osmotic stimulation in dogs.....	98
Figure 20: Basal release of ADH by SONH.....	100
Figure 21: Ach-induced release of ADH from SONH.....	101
Figure 22: Nicotine-induced release of ADH from SONH.....	103
Figure 23: Effect of McN-A-343-11 on SONH.....	104
Figure 24: A-11 induced release of ADH from SONH.....	105
Figure 25: Effect of IP on SONH.....	106
Figure 26: NE-induced release of ADH from SONH.....	107
Figure 27: Correlation between osmolality and ADH release.....	109
Figure 28: ADH release induced by hypertonic NaCl from SONH...	110
Figure 29: Effect of mecamylamine on ADH release from SONH induced by osmotic stimulation.....	111
Figure 30: Effect of pentolinium on ADH release from SONH induced by osmotic stimulation.....	112
Figure 31: Effect of phentolamine on ADH release from SONH induced by osmotic stimulation.....	114
